VOLUME XIV

OF THE

District Gazetteers of the United Provinces of Agra and Oudh.

ALLAHABAD:

Printed by We C. Abel, Offg. Supdt., Government Press, United Provinces $1\ 9\ 1\ 4\ .$

PREFACE.

Since the compilation of the Bijnor Gazetteer by Mr. H. R. Nevill, in 1907, the district has undergone several important changes. Notes incorporating these have been prepared and statistics have been brought up to date in the present volume as required by G. O. no. 1554/I—431, dated the 8th August 1912.

The "Notes" have been chiefly compiled by Pandit Brij Chand Sharma, M.A., LL.B., Deputy Collector.

BIJNOR:
The 12th October 1913.

G. B. LAMBERT, I. C. S.,
Collector.

Alterations and Additions to Part A of the Bijnor District Gazetteer, bringing it up to date 1913-14.

1,-Canals.

There has been some improvement in the canals of late years. Nagina canal.—The supply-channel leading to the Pilkhala was remodelled, in 1911, at a cost of Rs. 20,527. The present arrangement is that a temporary earthen "band" about 150 feet long is thrown across the Khoh and water is carried through a 30-foot supply-channel, which has a pakka masonry head of 4 bays 6' each, fitted with lift gates, into the Sukhruo. The masonry dam is there 250 feet wide. From this dam the second supply channel 15' bed, and about 3 miles long takes the water to the Pilkhala which has a regulator at Jogipura. The Nampura "minor" was constructed in 1901. It takes off from the right bank of the Kiratpur branch, is about two miles in length, and follows the line of an old zamindari cutting. Mughalwala "minor" was constructed in 1909. It takes off, from mile 61 main canal on the right bank and is about 14 miles long. The total length of the canal is now about 45 miles. Water power is utilized at village Ratupura P. Nagina, mile 91 where there is a flour mill which can grind 40 maunds in 24 hours. But the business at this mill is not very flourishing; for owing to the presence of two flour mills at Nagina, people seldom care to take their wheat to a distant mill at Ratupura. A new canal inspection house has recently been constructed at Nagina.

MANAGEMENT AND INCOME.

The private channels from which some irrigation was obtained in Nahtour have now been abandoned, and no irrigation is done from them. But direct river irrigation is done from the Gangan, above and below Tajpur-Nurpur road by means of temporary earthen dams in 8 or 9 villages, and ordinary canal rates are charged for this. The total capital outlay on the canals up to the end of 1911 amounted to Rs. 2,91,692 and the gross direct revenue amounted to Rs. 7,00,700,

2.—CATTLE CENSUS OF 1908-9.

A third stock census was taken in 1316 Fasli (1908-9) and the figures of this enumeration showed 214,682 bulls and bullocks and 13,519 male buffaloes, giving a total of 228,201, or an average of about 2.75 per plough. This average is slightly higher than that of the previous census of January 1904. The increase in the number of bullocks more than counterbalanced the decrease in the number of male buffaloes. The number of cows only slightly decreased to 129,244, but the number of cow-buffaloes rose to 45,721 and the number of young stock to 171,158.

The number of horses and ponies decreased from 8,848 in 1904 to 8,603 in 1908-9, but the number of mules increased considerably from 1,439 to 2,003. The number of sheep and goats decreased considerably from 62,080 and 56,805 in 1904 to 53,965 and 49,555 in 1908-9 respectively; but the former are still numerous. The number of carts rose from 39,400 to 45,661 at the last enumeration.

For the prevention of cattle disease one more veterinary assistant has been added to the three already employed in the district. Two of these are in charge of the veterinary dispensaries at Nagina and Bijnor and the other two are on peripatetic duty, one being in charge of tahsils Bijnor and Najibabad and the other of tahsils Dhampur and Nagina, with head quarters at Najibabad and Dhampur respectively.

3.—HEALTH AND DISEASE.

The truth, that generally speaking, the higher the percentage of fever to the total mortality the better the health of the district, is borne out by the figures of the ten years ending with 1910. During the decade, the percentage of deaths from fever was sufficiently high, viz. 75, and the health of the district was generally good. The average of deaths from cholera rose to 606 per annum, the rise being due to the epidemics of cholera in 1906 and 1908. The other years of the decade were not marked by any epidemic of cholera though the disease was more or less prevalent. Plague revisited the district in 1906 and 1907. It was particularly virulent in the latter year, the mortality in this year, being the highest recorded. During this decade, 1909 was the only year in which the district was free from the scourge. It does not however

show any signs of complete cessation yet. During the last decade the year 1908 only was marked by a high mortality from small-pox, but the number of deaths from this disease has declined of late: in 1910 only five cases were registered. The average number of vaccinations during the last five years ending in 1912 has declined to 23,298 from 25,900 the previous five years average. The average from 1891 to 1900 was 23,785. The salaries of the vaccination staff have been raised in accordance with the scale in G. O. no. 99/XVI—115, dated the 26th February 1912. During the five years ending in 1905 the mean annual-birth-rate was 50.85 per mille.

4.—SANITATION.

Of late sanitation has received growing attention in this district as elsewhere. In Nagina a drainage scheme was taken in hand in 1905. The cost of the project was estimated at Rs. 61,000, out of which Rs. 20,000 were given by Government as a grant and Rs. 40,000 as a loan to be repaid in twenty years (vide letter no. 939, dated the 19th May 1905, from the Sanitary Engineer to Government to the chairman and G. O. no. 787/XI—329, dated the 15th March 1907). Drainage works were commenced in 1906 and finished in 1909. There has been further expenditure from Government grants since.

In Dhampur a similar project is ready, the estimated cost of which is Rs. 70,281, and Government has recently made a grant of Rs. 20,000 towards the construction of the main drains.

For some time past Government had under consideration the improvement of sanitary services in the municipalities and orders have recently been issued on this subject. All the municipalities have been divided into three classes according to their income. In this district the municipalities of Nagina and Najibabad, having an income of over Rs. 20,000, have been placed in class III and will each be required, with effect from 1st April 1916, to entertain the services of a trained sanitary inspector (vide rules published in notification no. 3891/XI—16E., dated the 28th October 1912, Municipal department). The smaller municipalities will employ one conservancy Sub-Inspector for each Rs. 20,000 of the population (Resolution no. 3901/XI—16E, dated the 31st October 1912). The municipalities of Nagina and Najibabad

have, in view of the abolition of octroi and the consequent lightening of the work of their secretaries, obtained the permission of the Sanitary Commissioner under rule 12 of the rules referred to above to combine the duties of sanitary inspector with the duties of secretary and will get their present secretaries trained at the King George's Medical College, Lucknow, as sanitary inspectors. Consequent on the relief of local bodies from police charges more funds are now available for sanitary improvements in Act XX towns, and these funds are being regularly spent on sanitary improvements, such as the purchase of foul-water carts, pavements, &c. Important sanitary works in Act XX towns will be placed on the Sanitary Board's programme of sanitary works in order of urgency after the general Survey that is being made of the needs of Act XX towns is finished.

Protective works against the erosion of the river Amla, which had been scouring the north face of the Afzalgarh town have been completed in 1913 under the charge of the Irrigation department, and the cost has been met from a special grant of Rs. 7,300 made by Government for the purpose. The bed of the Nachna channel will shortly be cleaned at a cost of Rs. 1,129 and this will be an important sanitary improvement to the town.

The scheme outlined in G. O. no. 717/IX-112, dated the 29th October 1912, for the improvement of rural sanitation was carried out in the following 18 villages in this district in 1912-13, Banhera, Sahanpur, Nagal, Jalalabad, Rehar, Kot-Kadir, Tanda Majdas, Kasimpur Garhi, Nindru, Morna, Nurpur, Tajpur, Asgarinur. Pheona, Sahaspur. Mohammadpur-Deomal, Inampura, and Siau. The selection of the villages was based on their size, on the obvious necessity of some scheme of sanitation however primitive and on the willingness of the people to make the scheme a success. The scheme has not yet sufficient vitality to be able to maintain itself without official encouragement. A grant of Rs. 50 to each village supplemented by local subscriptions, which in some villages were considerable, formed the basis of sanitary works. such as cleaning and repairing of wells, the filling up of insanitary hollows, construction of simple absorption pits &c. Five more villages have been added to the number of villages under

this scheme for 1913-14. These are Barampur, Chitawar, Puraini, Raipur Sadaat, and Gohawar. There is no reason to suppose that this scheme will not take permanent root in this district.

5.--ANTI-MALARIAL OPERATIONS IN NAGINA.

Nagina has long enjoyed an unenviable reputation for malaria. Major Robertson, I.M.S. the Special Malaria Officer, made an elaborate investigation into the causes of malaria and of the general unhealthiness of the town in 1909 and in his excellent and exhaustive report suggested various methods of counteracting the town's unhealthy tendencies. In consequence of his recommendations, it was proposed to prohibit irrigation from the canal, as well as rice cultivation, within half a mile of the inhabited site, and to fill up the tanks and borrow pits which had been found to be the most fertile places for mosquito-breeding. As a necessary corollary to this, fresh excavations for house-building and brick-making purposes were to be prohibited within one mile of the town. Various suggestions were also made, for the extension of the use of quinine both as a curative and as a prophylatic.

Major Robertson's report was considered by a committee consisting of the Sanitary Commissioner, the Sanitary Engineer, the Executive Engineer, Rohilkhand Canals, and the Collector of Bijnor which met at Nagina on 9th and 10th May 1912. It was decided to prohibit rice cultivation within half a mile of the inhabited area, and also to prohibit fresh excavations within one mile of the same. To achieve these objects the municipal board has decided to extend the present municipal boundaries so as to make them coincide with the half-mile sanitary boundary line. The committee advocated five methods of dealing with the tanks :---(1) To fill some of the tanks completely, (2) to partly fill and to partly drain them by means of two cuts, called the north and south cuts, into the existing drainage channels-the Karula and the Pandhoi rivers, (3) where complete draining was not possible, to drain as low as possible, and then to deepen the tank in the centre, thus avoiding shallow sloping banks by placing earth on the sides, (4) where draining was not possible at all, to deepen the tank placing the material on the sides, (5) where none of these was possible to foul the tank with town rubbish,

Almost all the important tanks are now being dealt with under one or other of the above methods and the municipatity is contemplating the acquisition of the sites of the tanks which are to be filled up completely. They will be leased for agriculture and it is expected that the acquisition will prove a profitable municipal investment. The railway authorities have been requested to fill up the borrow pits in the station yard.

As regards the canal it was considered sufficient, in the opinion of the committee, to flush it weekly and this is now being done.

These anti-malarial operations are now in full swing at Nagina. The work is being done under the supervision of the Irrigation department. The total cost was estimated at Rs. 79,579 and a sum of Rs. 26,000 was spent on this scheme by March 1913. It is hoped that the work will be finished during the current financial year 1913-14. The cost is being borne by Government.

6.-CULTIVATION AND IRRIGATION.

During the last five years ending in 1319 Fasli, cultivation has been further extended in the district, the agricultural depression in Afzalgarh and Bashta has disappeared and the fiscally precarious mahals of pargana Mandawar have improved. The average cultivated area of the five years ending in 1319 Fasli is 658,046 acres or 57.4 per cent. of the total area and excluding the forest area, the percentage rises to 60. But this average does not show the true condition of affairs in the district, for the unusually low figure of 1319 Fasli, due to the drought in kharif of that year, affects the average adversely. The figures of the three preceding years 1316 Fasli, 1317 Fasli, and 1318 Fasli are 678,641, 684,043, and 677,016 acres respectively. These figures are all higher than the record figure of 1312 Fasli, which was 674,421. It would appear therefore that the improvement in cultivation has been well maintained. The standard of cultivation is extremely high eutside the forest tract, except perhaps in the khadir lands which are necessarily more or less precarious. Thus only 29.2 per cent. of the whole area is cultivated in Barhapura, 31.4 per cent. in Najibabad, and 40.9 in Afzalgarh. In the remaining area the lowest proportion is 58.7 in Daranagar, followed by 60.1 in Mandawar, 60.7 in Kiratpur, 61.3 in Dhampur, and 61.5 in Bashta.

these parganas possessing large stretches of khadir lands. In Akbarabad and Bijnor the percentage is 64.6 and it then rises to 66.9 in Nehtor followed by 67.1 in Seohara 69.8 in Nagina, and 71.9 in Burpur. The highest point is reached in Chandpur with 72.4. These percentages, however, do not represent the normal condition of affairs based as they are on the last year's figures which were low. The figures for 1319 Fasli are given in the appendix but the record figure of cultivated area is that of the year 1317 Fasli. The average figures of kharif and rabi area for the five years ending in 1319 Fasli are 420,368 acres and 304,378 acres respectively, and but for the lean year 1315 Fasli and the short monsoon of 1319 Fasli, these figures would have been considerably higher. There has been an increase in irrigation in the district. The returns for the last five years ending with 1319 Fasli show an average irrigated area of 45,151 acres or 6.83 per cent of the net average cultivation as compared with 39,806 the average of the previous five years. This is exceeded in Burpur, where 27.7 per cent was irrigated; in Dhampur, with 17.1 per cent; in Nagina, with 16.4; in Seohara, with 9.9 per cent; and in Najibabad with 8.6 per cent. At the present time 42.77 per cent of the land irrigated is watered from wells, 42°13 per cent from canals, and 15.10 per cent from streams and other sources.

7.—THE AGRICULTURAL DEPRESSION IN PARGANA AFZALGARH.

The deteriorated condition of a number of villages in the Afzalgarh pargana belonging to the estate of K. Karan Singh, in charge of the Deputy Commissioner, Naini Tal, as manager of the court of wards, had attracted the attention of the Board of Revenue before the year 1901. Mr. Swann, the then Collector, proposed reductions of revenue in six villages, viz. Khannuwala, Rampur Kalan, Raipure, Fatehpur Dhara, Mohammad Alipur Patta Ghat, and Mankanthpur Garhi. These reductions were sanctioned by Government for three years (vide G. O. no. 18/1-193-F., dated the 3rd January 1902). But a large part of the pargana had been suffering from agricultural depression and at the commencement of the camping season of 1901-02 several applications by other proprietors, notably the Raja of Tajpur and the Rais of Rehar, were filed asking for reduction of revenue in their villages also. Mr. Swann inspected the whole

pargana and made a prolonged enquiry, the effect of which was to prove the existence of serious agricultural depression. The Junior Member of the Board of Revenue, Mr. Hooper, visited the district in August 1902 and the matter was discussed with him and Mr. Holme. The conclusion arrived at was that a revision of the jama was undoubtedly necessary. It was at first thought desirable to limit the operations to the villages in respect of which applications had been received, but the Board decided that the whole pargana should be dealt with once for all, instead of piece meal as applications for relief were received. Mr. Holme was deputed to revise the assessment wherenecessary, and pending his proposals a portion of the revenue, Rs. 4,680 was suspended by Government (G. O. no. 3791/1-155-G., dated the 17th December 1902.)

Pargana Afzalgath.—Mr. Holme inspected 122 mahals in pargana Afzalgath and nine in pargana Barhapura, but out of the 122 mahals in the former pargana reductions were proposed by him in 90 only for ten years. This number included eight alluvial mahals on which the Board sanctioned reductions on condition that the proprietors relinquished heir long-term settlements, tand they were brought on the quinquennial register. But the proprietors agreed to this condition in the case of five mahals only, which were consequently placed on the quinquennial register and in the case of the remaining three the original long-term settlements were allowed to stand. Thus in 82 mahals in pargana Afzalgarh a total reduction of revenue was sanctioned from Rs. 41,205 to Rs. 31,470 for ten years ending with 1319 Fasli.

All these mahals, now 89 in number, some of the old mahals having been partitioned, were inspected in the cold weather of 1319 Fasli and the assessment was revised. It was found that they had recovered from the depression existing in Mr. Holme's time and consequently the maximum jamas of Mr. Pert's settlement were in most cases re-imposed. The following figures will afford sufficient evidence of the present improved conditions in the old deteriorated mahals:—

| | | 1903 Fasii. | 1309 Fasii. | 1319 Fasli. |
|----|---------------------|-------------|-------------|-------------|
| 1. | Holdings area | 20,062 | 19,084 | 20,788 |
| 2. | Cultivated ares | 15,182 | 15,311 | 17,819 |
| 8. | Average demand | 85,275 | 63,045 | 87,942 |
| 4. | Average collections | 80,743 | 57,522 | 82,594 |
| 5 | Revenue | 41,210 | 31,465 | 88.675 |

(Proposed) or 42,280 with maximum james of short-term villages.

The proposed jama of Rs. 38,675, which, with but slight modifications, was approved by the Board, was only 6.15 per cent. below the sanctioned final demand of 1303 Fasli. The assessments were in all cases revised for the remainder of the current settlement save three in which the present assets did not fairly represent the improved value of the mahals in question.

Pargana Barhapura.—Barhapura was in a depressed state at the time of settlement, and Mr. Pert based his assessments on what appeared to be the normal of previous years. Most of the villages had recovered by the time of Mr. Holme's revision in 1902 and 1903, when only seven villages comprising nine mahals were found by him to require relief. The revenue of these villages was reduced from Rs. 1,565 to Rs. 1,000 for five years ending with 1814 Fasli (G. O. no. 172/1-155 G., dated the 1st June 1903) within which period it was anticipated that they would recover. assessments were revised in 1314 Fasli—the nine mahals being then only seven in number, as four of them having been united to form two mahals. It was found that expectations had not been fully realised and that these mahals had not fully recovered. not thought desirable to continue a series of short-term settlements, the assessments in all cases were sanctioned for the remainder of the current settlement. The revenue was raised from Rs. 1,000 to Rs. 1,145 as against the sanctioned demand of Mr. Pert's settlement, which was Rs. 1,565.

Pargana Bashta.—On account of temporary deterioration in pargana Bashta, Mr. Holme placed 42 mahals under short-term settlement, in 1902-03. In view of the depressed condition of these mahals he proposed a jama for five years, at the same time determining a maximum jama to be levied, after the expiry of that period, in case the mahals were found to have recovered from deterioration. The assessments of these mahals were revised in 1315 Fasli and it was found that 26 of these mahals had recovered, cultivation had reached the standard prescribed by Mr. Holme, and therefore the maximum jama was imposed G. O. no. 2331/I-718, dated 11th September 1908 on the valuation at Mr. Holme's rates. The remaining 16 mahals not having recovered from deterioration completely, were again placed under a five years' settlement with lower jamas. These

(G. O. no. 2881/I—71, 11th September 1908.

have recently been revised (in 1320 Fasli), and the maximum jamas have in all cases been imposed for the remainder of the current settlement as they have recovered from the previous deterioration (vife B. O. no. 819N/1—812B., dated the 7th June 1913).

Thus the three most deteriorated parganas have recovered from depression.

The increase in the population of the district is also evidence of the fact of the disappearance of agricultural deterioration which during the previous decade (1891—1900) had set the population wandering in unusually large numbers mostly into the neighbouring districts.

8.—PRECARIOUS TRACTS IN MANDAWAR.

The precarious tracts in Mandawar also show considerable improvement. The precarious tracts comprised, Barkhurdarpur in circle I, 22 villages in circle II, Mohammad Alipur Manshah, Mohsenpur, and Makarrampur in circle III, and the whole of circles IV and V. Barkhurdarpur Kabir, a fiscally precarious village at the time of settlement had a cultivated area of 142 acres and in 1318 Fasli it was 120 acres. In spite of this decrease in the area, the total rental rose from 519 at settlement to 618 in 1318 Fasli. The rate of incidence per acre has increased from 4.32 to 4.98.

In circle II, out of the 22 physically precarious villages shown in the P. Handbook as such, 6 have improved considerably, viz. Sadullapur, Dayalwala, Khanpur Dubeh, Sheorampur, Sechara Nizamabad, and Salarpur, while those shown at nos. 5, 6, 8, 9, 12, 13, 16, 18, 21 and 22 on P. 10A of the P. Handbook show only slight improvement and nos. 10, 11, 15, 17, 19 and 20 show a slight detrease in incidence per acre since settlement, no. 15—Mirgipur-showing a marked decrease from 2.42 to 1.39, in spite of an increase in area from 109 to 141 acres. The three fiscally precarious villages in circle no. III have made marked progress since settlement, as the following figures will show:—

Rates of incidence per acre.

| | Ir | 1303 Fasli. | In 1318 Fasli. |
|----|-------------------------|-------------|----------------|
| 1. | Mohammad Alipur Manshah | 8-72 | 12-69 |
| 2. | Mohsinpur | 4-69 | 7-11 |
| 3. | Makramatpur | 6-65 | 10-01 |

The average rate for this circle at settlement was 7.43. Circle IV consists of 15 physically precarious villages lying in the Ganges valley but not affected by the fluvial action of the river. Almost all these have more or less improved excepting Hirdey Rampur Khadar, Kunandpur, and Saifpur Khadar. On the whole these precarious tracts show a good deal of improvment. It must be remembered that this pargana comprises large tracts of khadir lands which are by nature precarious.

9.-FAMINE 1908.

The district was affected by the short monsoon rainfall of 1907, but showed considerable powers of resistance. No rain at all was received in September and the rainfall of August averaged only 6.63 inches. The *kharif* was, in consequence, almost a complete failure over the greater part of the district, and the rabi gave only an 8-anna outturn in a greatly reduced area (205, 129 acres). The rabi of 1314 Fasli had been below the average, so that the worst was at one time anticipated.

Gratuitous relief committees were formed in all towns in November 1907. Scarcity was formally declared on 19th December 1907 in order to regularize preliminary expenditure. But the declaration of famine was never necessary and the measures detailed below were sufficient to tide the district over the period of distress. The distribution of gratuitous relief in municipalities and Act XX towns began on 15th January 1908. A few days later it was extended to the largest villages. The numbers on gratuitous relief rose gradually till they reached 2,374 on 29th February. They remained above 2,300 until April 1911, when the effects of the rabi began to be felt. Even then numbers fell slowly as the majority of those in receipt of relief were old and infirm, pardanashin women, invalids or children. The spinning test was more strictly enforced as the situation became easier. Relief was finally closed on 15th June with a valedictory date for 15 days.

No poor-houses or public works charges or even test works were found to be necessary though arrangements for them had been made. There were also no civil works. There were 16 aided works, but only one was of any importance, viz. the metalling of the Tajpur-Seohara road undertaken by the Rajah of Tajpur with a half recoverable advance. An advance of Rs. 20,000 was sanctioned

for this work, but only Rs. 12,000 actually given. There were also five small private works. The January rain removed all apprehen-The mortality amongst cattle was sions of a fodder scarcity. below normal, from December 1907 to June 1908, though sales of cattle are believed to have been considerable. Though prices were continuously above scarcity rates, no test work was found necessary and the demand for labour at remunerative rates was well maintained throughout. There was no wandering or emmigration and no visible signs of famine. It is also remarkable that the consumption of liquor showed no falling-off and that of drugs actully increased. These results are attributed to the fact that the district had not been badly hit for the previous six years and had had very good crops during several of the more recent seasons, and also to the generous distribution of takavi in October and November 1907 and to the fact that liberal suspensions of revenue left both zamindars and tenants something to live on.

Actual advances for aided works amounted to Rs. 18,000 and gratuitous relief cost Rs. 20,752. During the year Rs. 4,72,573 were advanced as takavi under Act XII and Rs. 10,050 for the construction of masonry wells under Act XII. Four thousand kachcha wells were constructed from the Act XII takavi, Rs. 21,780 of the total given above being advanced for this specific purpose. Six hundred and sixty-five was the highest number of workers employed on aided works at any one time, and 258 is similarly the highest number of weavers relieved at one time under the special scheme. Suspensions to the extent of Rs. 3,91,653 were granted, of which Rs. 1,66,423 were eventually remitted. The monsoon of 1908 was fairly good and soon removed all traces of the recent hard times.

10,-MARKETS AND TRADE.

A new trade centre is springing up at Chandpur as the result of the opening of the Gajrola-Chandpur branch of the Oudh and Rohilkhand Railway and the building of a new Ganj there is in contemplation. A fresh impetus has been given to the trade of Kiratpur, by the construction of a new Ganj by L. Gori Lal, a well-to-do Bania of the town. The sugar trade of Nagina is being slowly diverted towards Dhampur, where the present market of Markhan Ganj is to be paved at a cost of Rs. 14,241. Government has made a grant of

Rs. 6,200 towards this and a sum of Rs. 6,082 has been raised by subscriptions.

The Hadi process sugar factory at Nahtour has now definitely failed. A similar venture at Bijnor under a resident European promises to be more successful. The use of small engines, usually oil-engines, is spreading in the district.

11.—ROADS.

The only provincial road in the district till lately was the unmetalled route from Najibabed to Kotdwar, but the Bijnor-Muzaffarnagar metalled road, a distance of about 6 miles and 4 furlongs, has now become a provincial first class road. The second class Seohara-Tajpur road has been metalled and this has reduced the total length of second class roads in this district from 126 miles to 118 miles and 4 furlongs. The fourth class road from Chandok to Mandawar, a distance of 7 miles, has also been metalled and the metalling of the second class Bijnor-Najibabad road is contemplated. This latter is pending the decision of the light railway question from Bijnor to Najibabad. The present total length of the 24 fourth class roads in the district is 348 miles and 2 furlongs. The present length of the 7 sixth class roads in the district, which are cleared only, is over 74 miles.

K. Bharat Singh Rai Bahadur of Sahanpur has also metalled the road from Sahanpur village to the Malin river, just outside Najibabad, a length of about 1½ miles.

12.—RAILWAY.

The Gajraula-Chandpur branch line, which terminates at Chandpur, was opened in 1911 and has placed the south-western parganas within reach of the railway. Chandpur will probably develop a considerable trade in consequence. Other schemes are in the air but have not yet materialised. A light railway is proposed from Chandpur to Najibabad via Bijnor in default of the extension of the broad gauge line. The Rohilkhand and Kumaun Railway proposes an extension from Kashipur in the Naini Tal Tarai to Kalagarh via Rahar. There is also a suggestion to connect Najibabad direct with the new capital at Delhi via Meerut and Bijnor.

13.—Census, 1911.

The census of 1911 showed an increase of 3.3 per cent in the population, the total number of inhabitants being 806,202 as against 779,951 in 1901. The mean density is 429 per square mile as against 415 in 1901. Najibabad, Nagina, and Bijnor tahsils are homogenous and have a density of between 300 and 450. Bijnor is an improving tahsil and its density has grown with each decade till it is now 440—the provincial average. The density of Dhampur is between 450 and 600. The percentage of births was 49.6 and that of deaths 46.4; births exceeded deaths by 24,827. The natural population increased by 6,834 and the actual population by 26,251. Immigration has slightly increased, but is not very extensive, the figures for 1911 being 34,301, while those for 1901 being 32,446; emigration has considerably decreased.

In 1911 there were 68,913 emigrants as against 86,485 in 1901. But this is a reversion to the normal. During the decade 1891—1900 there was serious agricultural depression in certain parts of Nagina, which set the population wandering in unusually large numbers, mostly into the neighbouring districts. The increase in population is general; 3.6 in Bijnor, 3.3 in Najibabad, 1.7 in Dhampur, and 5.8 in Nagina, but the fact that it is greatest in Nagina probably points to the fact that many of the emigrants of the last decade have returned to their homes.

The district is said to have one of the healthiest climates in the province; it has however, suffered severely from plague (death-rate 3.5) and from the malaria epidemic of 1908, which was specially severe in Bijnor and Dhampur. The distribution of the population among the various main religions will appear from the following figures:—

Number per 10,000 of population.

| | | | | 1911. | 1901. |
|-------------|-----|-----|-----|-------|-------|
| Hindus | •• | • • | | 6,811 | 6,388 |
| Muhammadans | • • | • • | | 3,479 | 8,484 |
| Christians | •• | •• | • • | 115 | 66 |
| Aryas | | • • | | 35 | 11 |

Christians and Aryas have continued to increase rapidly. In 1911 the proportion of females to males was 887 to 1,000 (actual population) and 873 to 1,000, natural population. The provincial proportion is 915 to 1,000 as against 937 to 1,000. In 1901 the figures for the district were 918 to 1,000 (actual) and 911 to 1,000 (natural).

14,—TABLE II—POPULATION BY THANAS.

In accordance with the recommendations of Mr. Hoskins' scheme, published at page 34 of his report on the re-allocation of police circles, police stations Ganj and Bashta have been abolished with effect from 1909. The former has been amalgamated with police station Bijnor and the latter has been partitioned between police station Chandpur and Amhera, the original police station having been reduced to an outpost. Mr. Hoskins' recommendations about the abolition of police stations Shampur and Rehar, are still under consideration.

15.—LEADING LANDOWNERS.

Of the leading landowners in the district, Raja Harbans Singh of Haldaur died on 15th April 1909 and his property is now in the possession of his two widows. Litigation with K. Tejbal Bikram Singh, cousin of the late Raja, is not improving the prospects of the estate.

Rai Bahadur Chaudhari Ranjit Singh of Sherkote died on 4th February 1909 and his property is now in the possession of his widow and is being managed by a retired Government official. Rai Bahadur Chaudhari Basant Singh of Seohara died on the 2nd April 1909 and Babu Lakhan Singh of Rehar on the 19th December 1911. The latter's property is now under the management of the court of wards. Mufti Ibrahim Husain of Kiratpur died on the 11th February 1913 and Chaudhari Budh Singh of Siao on the 12th April 1913.

16.—DISTRICT STAFF.

The considerable increase in litigation, which is one of the signs of prosperity in this country and the growth of work generally, has necessiated an increase in the district staff. As a result of what is known as Mr. Pike's scheme, the sanctioned executive staff of this district has been increased to four full-powered sub-divisional officers, with one assistant collector, 1st class, and one treasury officer in addition, whilst on the civil side there is every probability of a munsif's court being established at Dhampur, as a result of Mr. Creeven's scheme.

G. O. no. 437/II—654 qf 1911 dated 7th February 1911.

17.—Table XVII—Distribution of Police, 1913.

In pursuance of a policy of relieving local bodies from police charges in order to set free funds for sanitary improvements, the

municipal police was converted into constabulary, with effect from 1st September 1907 under the orders published at page 528 of Police Gazette, dated the 24th July 1907, and consequent upon this conversion the district police staff has been re-distributed in accordance with Mr. Hoskins' recommendations. The municipalities were relieved of police charges (under G. O. no. 2653/XI-214D., dated the 20th September 1905) with effect from 1st March 1906 and these charges are now being paid from provincial revenues. With effect from 1911-12 the municipalities have also been relieved of charges for repairs and upkeep of police outposts under G. O. no. 1114/XI-214D., dated the 7th April 1911. It is also under contemplation to relieve Act XX towns of police charges, but the provisions of Act XX of 1856 which make it necessary to apply to police charges the bulk of the taxation levied under the Act, at present stand in the way. The amendment of the Act therefore is under consideration, but in order to give immediate relief Government has made grants for purposes of sanitation and general improvement to each town, equal to the cost of police with effect from 1911-12 (G. O. no. 2205/XI-640D., dated the 3rd July 1911). When the law has been altered, the town police will also be provincialized.

18.—Excise.

Formerly the district was under the distillery system with a fringe of outstills in the forest tract. Outstills were abolished from the 1st October 1908 and six months later what is known as the contract system was introduced into the whole district with effect from 1st April 1909 (vide G. O. no. 127/XIII-60, dated the 11th February 1908). Messrs. Ram Rakha Mal & Co., of Saharanpur obtained a contract to supply spirit from Saharanpur to this district. Bonded ware-houses were estatablished at Bijnor, Najibabad and Dhampur. The excise staff was increased from one to four excise inspectors with effect from 1908-09 (vide Commissioner of Excise circular letter no. 2054, dated the 8th September 1908) and the excise inspectors were placed under the direct supervision of an Assistant Commissioner of Excise with head quarters at Saharanpur. Three of these excise inspectors were placed in charge of the three bonded warehouses in addition to the preventive work of their circles and the fourth inspector at

Nagina had only peripatetic duties to perform. Since the 28th February 1913 however, the number of excise inspectors has been reduced to three, and their work has been re-arranged. The contract system has been gaining ground steadily.

The duty on liquor is Re. 3 per L. P. gallon, Rs. 2-4 per gallon for 25 U. P., and Re. 1-8 per gallon for 50° U. P.

The selling price of the former varies from 12 annas to Re. 1 per bottle and that of the latter from 8 annas to 12 annas per bottle. So far as hemp drugs are concerned, the only change is that the district contract system has been replaced by tahsilwar contract system with effect from 1st April 1912. Though a higher figure was offered for the district as a whole owing to the enhancement in charas duty from Rs. 8 to Rs. 12, this system has a distinct advantage in the better quality of charas now supplied to the sub-lessees and there is no monopoly. The selling price of charas varies from Rs. 20 to Rs. 32 per seer and of bhang from annas 12 to Re. 1 per seer, though bhang has very little sale in this district.

To promote co-operation between the police and the excise inspectors and to discuss other important questions relating to excise administration, a district excise conference has been started with effect from April 1912 and meets twice a year in October and April.

19.—STAMPS.

The amount of receipts from stamps, judicial and otherwise, still shows a tendency to rise. During the last five years the average has risen to Rs. 1,96,495 as against Rs. 1,53,800, the average of the previous five years; while during the last three years, the income has always been over 2 lakhs each year. The average income from court-fee and copy stamps for the last five years is Rs. 1,49,344 or 76 per cent. of the total average, which shows that the rate of increase has been well maintained. The recent institution of mortgage suits; in consequence of the change in the law of limitation has much to do with this increase, which will be to that extent temporary.

20.--INCOME-TAX.

The average revenue from income-tax, for the last five years is Rs. 27,162. The persons with incomes of Rs. 2,000 and upwards paid on an average 94.84 each, the average number of such assessees being 171 and the average income Rs. 16,217.

21.—MUNICIPALITIES.

With a view to encourage non-official control, Government substituted non-official for official chairmen in eighteen municipalities in 1909-10. In this district this change gave non-official chairman to three out of the five municipalities, viz. those of Bijnor, Najibabad and Chandpur. In 1913, the principle of reducing official agency in the machinery of local self-government was extended to fifteen other municipalities, but no further change was effected in Bijnor. Official chairmen continued to hold office in Dhampur and Nagina.

Mr. Hope Simpson's committee, appointed in 1908 to enquire into the subject of municipal taxation, did not visit this district, but on general principles condemned octroi as a serious hindrance to trade, and suggested that for the Bijnor district the imposition of taxes on professions, trades, and services would prove a salutary measure. But in view of G. O. no. 899/XI-700D. of 1911, dated the 23rd March 1911, a tax on circumstances and property was finally resolved upon, as a most suitable substitute for octroi in this district. Consequently octroi was replaced in Nagina in September 1912 and in Najibabad and Dhampur in April 1913, by a tax on circumstances and property. The rates of the new tax in Najibabad and Nagina are on a uniform scale. Incomes below Rs. 75 are exempt, those from Rs. 75 to Rs. 120 per annum being taxed at a fixed rate of Re. 1 per head, those from Rs. 121 to Rs. 500 at 2 per cent., and those above Rs. 500 at 3 per cent. with a maximum tax of Rs. 200 a year. In Dhampur also the rates are the same except that incomes from Rs. 76 to Rs. 150 are taxed at a fixed rate of Rs. 1 per head. yield from the new tax in these municipalities being nearly the same as that from octroi, the imposition of any supplementary tax has been found to be unnecessary.

The other two municipalities of Bijnor and Chandpur have also decided to abolish octroi and proposals are now before the Government of India for sanction. For these municipalities the Local Government has placed the taxable minimum at Rs 100 instead of Rs. 75 as in the other three municipalities. In Bijnor, incomes from Rs. 100 to Rs. 120 are proposed to be taxed at Re. 1 per heal, from Rs. 121 to Rs. 250 at Re. 1-9 per cent., while

incomes above Rs. 250 will pay at the rate of Rs. 2 per cent with a miximum tax of Rs. 200 a year. In Chandpur the rates proposed are Re. 1 per head on incomes from Rs. 100 to Rs. 120, Rs. 2-8 per head from Rs. 121 to Rs. 200, and Rs. 2 per cent on incomes above Rs. 200 with a maximum of Rs. 250 a year.

To provide for any possible financial stringency arising out of the change from octroi to direct taxation, Government has made special grants to the municipalities of Nagina, Najibabad and Dhampur and similar grants will be made to the other two boards when the new taxation is introduced. See G. O. no. 1431/XI—190E., dated the 15th April 1913.

As a result of this direct taxation, increasing interest is being displayed by the public in municipal affairs and with a right to vote at the elections for the provincial legislative council, membership of municipal and district boards has come to acquire an enhanced value of its own, and elections are keenly contested.

22.—EDUCATION.

Considerable educational progress has taken place in this district during recent years stimulated by the pronouncements of the Imperial and Local Governments on this subject. With the help of Government grants ten new schools were opened in the district in 1912 and fifteen extra teachers were employed. At the same time fees in primary schools were slightly raised in 1912-13, Further grants have recently been made by Government to all the municipalities in the district (vide resolution no. 2333, dated the 25th June 1913, page 302, part VIII, U. P. Gazette, dated the 28th June 1913) for extension of primary education. A number of schools will shortly be opened in these towns in consequence. The scale of salaries of teachers has been raised, and a programme for erecting suitable buildings taken in hand. Comprehensive schemes for future expansion have been prepared by municipal and district boards at the instance of Government and the next few years are likely to be years of great development. The inspecting staff of the district was strengthened by the appointment of a third sub-deputy inspector in January 1912. In July 1912, the transfer of the District Inspecting staff to the control of the Education department was effected. The assumption by Government of the administrative charge of the district board high school in 1908,

and of the financial charge in 1910, put secondary education on a sounder footing. The most important private educational institution in the district, is the well-known Gurukul at Kangri (tahsil Najibabad) established by the Punjab Arya Pritinidhi Sabha in March 1902, with the object of imparting instruction on ancient lines. The residential system in vogue there is also designed to reproduce the system which is said to have existed in India in Vedic times. The Gurukul is situated on the banks of the Ganges below Hardwar in the village of Kangri, about 1,200 bighas in area which was given for the purpose by M. Aman Singh of Najibabad. This institution represents an experiment of great importance to Indian education and has made steady progress since its foundation. Its returns are now submitted to the Education department through this district. Among other private schools may be mentioned the Islamia school and the George Anglo-Vedic Bishnoi school of Nagina, the Sanskrit school, and the Nagri Pracharni school of Haldaur, the Muazzampur Jaitra school, and the Gopal Saran Bijnor school which teaches up to the middle standard. The special problem of education among the lower castes has hardly yet been touched, but it is encouraging to find the chamars of Haldaur possessing a school of their own.

The figures of the census of 1911 show a distinct advance in literacy since 1901. In 1911, 47 males per mille were literate against 39 in 1901, while in the same year 6 females per mille were literate as against one in 1901. Literacy was slightly more common among Muhammadans than among Hindus. Among Hindus 41 males per mille were recorded as literate, while among Muhammadans 43 males per mille were literate. Among both Hindus and Muhammadans the proportion of female literates per mille was the same, namely 4.

23.—New Dispensaries.

Two new dispensaries have been established at Seohara and Kiratpur, each in charge of a sub-assistant surgeon. The claims of Nahtaur and of the tract beyond the Ramganga have still to be dealt with.

The Seohara dispensary was started on 26th September 1909, and the building was erected in 1911-12. Chaudhari Param Singh of Seohara contributed Rs. 4,000 towards the building and Rs. 2,000

for investment in lieu of annual subscription.

The Kiratpur dispensary was first started experimentally in a hired building on 17th May 1909, the cost of the scheme being at first met from provincial revenues. A special grant of Rs. 1,400 was sanctioned in the district board budget of 1909-10 for this purpose, and a corresponding increase was made in the contribution to the district board by Government (G. O. no. 312, dated the 17th April 1909). In 1911-12 a suitable building was erected by the district board for this dispensary.

In 1912, Captain Nesfield, I. M. S., Civil Surgeon, initited a system of making small charges for medicine from the public at all dispensaries in the district as an experimental measure but this has at present been discontinued pending final decision of the question as a whole in its provincial aspect.

24.—TRAVELLING DISPENSARIES.

In connection with the re-allocation of travelling dispensaries in the United Provinces under orders contained in G. O. no. 246/XVI—50, addressed to the Chief Plague Officer, United Provinces, two of the four Plague travelling dispensaries working in the Meerut district were moved to the Bijnor, district on the 29th June 1912 and these started work, from 1st July 1912, a selected subassistant surgeon being in charge of each.

The district is divided into two charges. Tahsils Nagina and Najibabad are with one sub-assistant surgeon and Bijnor and Dhampur with the other, but the towns where permanent dispensaries already exist have been excluded from their operations. Each sub-assistant surgeon travels from place to place within his charge, halting for ten days at a particular place and visiting the neighbouring villages. The supervising medical officer has been asked to furnish tour movements of these dispensaries in advance as far as possible to the District Magistrate and the Civil Surgeon. This programme is communicated to the members of the district board in order to place them in close touch with the experiment.

The popularity of these dispensaries depends almost entirely on the personality of the sub-assistant surgeon in charge. In Bijnor excellent work is being done. There is undoubtedly a great future for travelling dispensaries if they continue to be

staffed with competent and conscientious men who should not be changed too often.

25.-POUNDS.

Cattle pounds having been found to be a very fruitful source of income to the district board. Four new pounds have been opened in 1913 at Baruki, Amehra, Banera, and Akberabad. The pound at Bawan Sarai was closed some years ago and a pound opened at Lalwala P. Barhapura instead.

26.—STALLIONS.

The horse stallions at Yusufa remained under the charge of Teja till 1907. On the 31st July 1907, they were transferred from Yusufa and were placed under the charge of Choudhari Sheo Nath Singh at Ratangarh where one of the stallions died. The other was removed to Athain in September 1910, where a donkey stallion had already been placed in March 1909. In April 1912 both the donkey as well as the horse stallion were removed from Athain and placed under the charge of the Dhampur estate at Dhampur, where they are at present. Two-thirds of the cost of maintenance is borne by the district board and one-third by the estate. There is no horse stallion at Haldaur now, but mule-breeding is still carried on in Mandawar and Afzalgarh, and in the low-lying portions of Dhampur as before.

27.-NEWSPAPERS.

There are signs of growing literary activity in the district as evinced by new ventures in newspaper publications. Progress however has been very limited. The Upkar of Nagina and the Qulqul of Bijnor have now ceased to exist, but the place of the latter has been taken by another weekly newspaper, the Medina started by the manager of the Sahifa. In tone and character the Medina resembles the old Qulqul and the existing Sahifa. The Zamindar wo Kashtkar has changed its name to Al-Khalil, and is now published weekly. The change has not only been in name, for in addition to dealing with agricultural matters it now takes an active part in political discussion. The Vedic Magazine is published from the Gurukul Kangri and deals with Aryan social, religious and philosophic subjects. The Abla Hitkarak published at Bijnor, deals mostly with widow marriage questions. Moalam-i-Am a monthly journal, recently started, has an ambitious

programme and deals with subjects of varied interest. It proposes to abstain from religious controversies and so far has been succeessful in achieving this object.

BUDAUN.

Supplementary notes and statistics to

VOLUME XV

OF THE

District Gazetteers of the United Provinces of Agra and Oudh.

ALLAHĀBĀD:

Printed by the Superintendent, Government Press, United Provinces, $1\ 9\ 1\ 6$.

District Gazetteer of the United Provinces, Vol. XV. Budaun.

ALTERATIONS AND ADDITIONS.

Page 42.

Under wells, in line 7 after 1905 add the following:-

"Since the scarcity of 1907-8 the number of masonry wells has considerably increased, great attention having been paid to distribution of takavi for this purpose.

Up to date (July 1915) 1,812 new masonry wells built from takavi have been completed and 1,460 are at present under construction."

Page 51.

At the end of the first paragraph add the following:-

"The scarcity of 1907-8 was the result of inadequate monsoon rains during the kharif of 1907 and of poor winter rains during the following rabi. Relief operations were necessitated. The Babrala-Gawan road was opened as a test work and several aided works were also undertaken. The portions of the district chiefly affected were tahsil Gunnaur and the bankati circle in tahsil Dataganj. Gratuitous relief amounting to Rs. 22,552 was distributed. The cost of aided works was Rs. 14,361, and of civil works Rs. 2,496. Rs. 6,02,104 were distributed as takavi under Act XII of 1884.

The next scarcity from which the district suffered was that caused originally by insufficient monsoon rains of 1913 and subsequently by the failure of winter rains in 1913-14. These had badly affected both kharif and rabi of 1321 Fasli. The scarcity was declared on 18th January, 1914, and operations were undertaken immediately in the greater part of Dataganj tahsil, the whole of Bisauli and pargana Budaun with a few adjoining villages of pargana Ujhani and pargana Sahaswan. Two test works were opened at Bisauli and Miao Hazratpur and a number of aided works were undertaken at a cost of Rs. 46,497. Rs. 10,203 were distributed as gratuitous relief. Relief was partly discontinued in July and finally closed on 15th August.

Rs. 11,06,061 were distributed as takavi under Act XII of 1884."

Page 59.

In line 10 after "for the occasion" add the following:-

"Just after the Kakora fair an exhibition is now held at Budaun by the Budaun agricultural and Industrial association, the object being the encouragement of commerce and industries of the district." The expenses of the exhibition are met by the funds of the association supplemented by general subscriptions and donations raised for the purpose."

Page 63.

At the end of the first paragraph after "a reference to the map" add the following: -

"A metalled road has been constructed from Budaun to Dataganj and ano her from Budaun to Sheikhupur. The latter was constructed by subscriptions given by the Sheikhupur raises. The road from Budaun to Bisauli is also being metalled. A portion of it has already been done and another is in hand."

Page 82.

In the first line after "by Amir Khusru of Delhi," add the following new sentences:—

The only weekly newspaper published at Budaun is the Zulkarnain, but it is not of much importance and its circulation is not large.

A fortnightly paper called the Budaun District Gazette is published from the Collector's office on the 5th and 20th of each month. It is a bilingual paper printed in Urdu and Hindi and contains, besides general news, articles on agriculture, commerce, industries, etc., etc. A monthly magazine called "Risalai-Shamsul-Ulum" is issued by Maulvi Abdul Majid. It contains articles chiefly on educational and literary matters.

Page 97.

After the first paragraph add the following:--

"There are two honorary assistant collectors in the district. There is also a bench of honorary magistrates at Dataganj having jurisdiction in the police circle of Dataganj and another at Usahat for the police circles of Hazratpur, Usahat and Kakrala. Besides the above, two new benches have been established at

Bisauli and Ujhani. The former has jurisdiction in the whole tahsil of Bisauli and the latter in the police circle of Ujhani. There is also an honorary magistrate of first class sitting singly for the whole of the Budaun district and one of third class for the Bisauli tahsil. There are also five honorary magistrates of second class who sit singly. Three of them have jurisdiction in thanas Budaun, Binawar, Ujhani and Qadarchauk (excluding Ujhani municipality), one has jurisdiction in the Budaun municipality and the fifth has jurisdiction in thana Ujhani and tahsil Sahaswan."

Page 97.

In the same paragraph in line 14 substitute the word "deputy" for the word "assistant."

In the next paragraph on the same page in line 10 substitute the word "were" for the word "are."

In line 12 substitute the word "came" for the word "comes" and in line 13 substitute "included," for "include."

Page 98.

In the first line substitute the word "four" for the word "various" and after "munsifs" in the same line delete the remaining words in the sentence and add the following:—

"A new judgeship was established at Budaun from 1st April, 1913, the jurisdiction (both civil and criminal) of the judge being in the entire district of Budaun. The civil court staff of the district now consists of one judge, one subordinate judge and four munsifs.

There is also an honorary munsif in the district who sits at Sheikhupur and has jurisdiction in the whole district. The civil courts are now housed in a building newly constructed which includes the old sessions circuit house. The new courts were opened by His Honour the Lieutenant-Governor on 8th July, 1915."

Page 119.

At the end of first paragraph after "for the past twenty; five years" add the following:—

"There are three bonded warehouses in the district at Budaun, Sahaswan and Bisauli, which issue liquor on Tuesday, Thursday and Saturday respectively.

The Sahaswan bonded warehouse will shortly be converted into a dépôt."

Page 124.

In the second paragraph in the fourth line after the first sentence add the following:—

"The Budaun and Ujhani municipal boards have got non-official chairmen."

Page 124.

Delete the last two words from the last line i. e., the words "the town."

Page 125.

Delete the word "police" in the first line.

Page 125.

In the first line after local improvements add the following:—
"The town fund has now been relieved from police charges
and the money thus saved is spent on other improvements."

In the second paragraph after the eighth line add the following:-

"It has got a paid Secretary."

Page 129.

At the end of first paragraph add the following :-

"A male dispensary was opened at Ujhani on 1st February, 1913, and a female dispensary was opened there by Mrs. Winnington Ingram on 25th March, 1915. Both the dispensaries were built by public subscription and are supported by the district board, the Ujhani municipal board also contributing towards their maintenance."

Page 183.

In the description of Budaun in line 15 before the word "most" add the words "except the first."

In the same line for the words "first two are" substitute the words "second is."

In line 16 for the word "their" substitute the word "its."

Page 260.

In the second paragraph in line 4 delete the following words:—
"Who is generally the district magistrate."

PILIBHIT

Supplementary notes and statistics to

VOLUME XVIII

SET TO

District Gazetteers of the United Provinces of Agra and Oudh.

ALLAHABAD:

Printed by P. Luker, Superintendent, Government Press, United Previnces, $1\,9\,1\,\delta\;.$

PREFACE.

Part 1.—Notes of events which have happened since the date of the compilation of the Volume A.

Alterations and Additions to Fart A of the Pilibhit District Gazetteer, bringing it up to date (1912).

Page 36.—PLAGUE.

With a view of teaching the people how best to combat plague, the whole district was parcelled out in 1912 into small areas. Each of these local areas is presided over by a committee composed of non-officials only.

The duties of these local committees are-

- (1) to preach evacuation, inoculation and the importance of getting rid of fleas;
- (2) to afford facilities for evacuation to those who wish to leave their houses when rats die or plague breaks out.

These local committees are controlled by pargana committees, which collect information and report what they have gathered to the central committee.

All three committees are composed entirely of non-officials.

The District Officer offers advice and helps to the central committee.

Page 57.—CANAL.

The following additions to and improvements in the canal systems in Pilibhit district have been made since December 1907.

- (1) Kailas weir and canal.—This weir and canal were remodelled in 1911-12, the remodelling consisted of:—
 - (a) Raising the weight of the weir.
 - (b) Providing a powerful escape sluice.
 - (c) Raising and strengthening the banks of the canal.

The object of the remodelling was to enable an increased supply of water being run in the canal during the period of the monsoon when it is available.

- (2) Absara distributary.—The construction of a pakka regulator fitted with counter-balanced roller gates at Pota in place of old kachcha dam and small escape at the head of the canal system, thus eliminating the danger of failure of the dam in the monsoon and ensuring the rice supply.
- (3) Gajrola dam.—The pakka escape at the Gajrola dam

 The pakka escape at the Gajrola

water of the Banarsi Nala and the new Banarsi head has also been constructed to control the feeder channel from the Absara river near Khamaria to this dam.

Page 65.—Famine.
The scarcity of 1907-8.

The monsoon of 1907 was unsatisfactory and the kharif crops of that year failed,

Scarcity was declared to exist in the district on 15th December 1907. However it was not found necessary to open test works. The agricultural population had reserves to fall back upon. The cutting and carrying of hay and baib grasses and firewood in the Government forests and the digging of kachcha wells and irrigating the rabi crop furnished sufficient employment for the agricultural population. Takavi to the extent of Rs. 2,08,636-14-0 was distributed:—

| | | | | Rs | B. | p. | |

| " catile | | Value of the Alberta | | 4,080 | 0 | 0 | |

Many landlords also advanced money to their tenants. Gratuitous relief was found necessary for those who ordinarily subsist on charity and was started on 22nd January 1908. The greatest number of persons in receipt of this form of relief was 599 for the week ending 25th April 1908. It was closed from the 15th June 1908. Rupees 4,299-10-8 were spent on gratuitous relief, the incidence per unit i.e., the average total cost for the whole period per person relieved, was Rs. 9-4-7.

In addition to these Rs. 9,270 was collected by private subscription. Raja Lalta Prasad, Rai Bahadur, headed the subscription list with a donation of Rs. 5,000.

Of the Rs. 9,270, thus collected a sum of Rs. 5,000 was remitted to the Provincial Charitable Relief Fund and the balance distributed locally.

Over $7\frac{1}{2}$ inches of rain fell on June 18th, 19th and 20th, 1908. This enabled the cultivators to sow their kharif crops, and as these turned out well, the effects of the scarcity soon ceased to be felt.

Page 72.—MANUFACTURES.

L. H. Brothers' Sugar Factory.

Considerable impetus has been given to the sugar industry in Pilibhit by the erection of a factory by Raja Lalta Prasad, Rai

Bahadur and his brother Sahu Har Prasad. This factory was opened in 1909. The building cost Rs. 85,000 and the machinery Rs. 1,55,000.

As it was found to be working at a loss the local Government deputed Mr. W. Hulme, the Government sugar engineer at the beginning of the cold weather of 1912 to remodel the machinery.

This was accomplished at a cost of Rs. 1,00,000 to which the local Government contributed Rs. 30,000.

The factory is now the most modern in India.

In the cold weather of 1912-13 the outturn of sugar was 13,262 maunds, the yield of sugar being 7 per cent. of the cane operated on.

Page 76.—RAILWAYS.

The Pilibhit district is now well supplied with railway communications by the Rohilkhand and Kumaun Railway Company. This is a metre gauge line, and was built as a State Railway and leased to the abovenamed company.

Forty-eight miles of the main line from Bareilly to Lucknow run through the Pilibhit district, 27 miles of the Pilibhit-Carewganj branch and 15 miles of the Pilibhit-Tanakpur extension and a project is being mooted of opening another line running direct from Bareilly to Bisalpur.

(1) The main line.—The section from Bhojeepura to Pilibhit was opened on the 15th November 1884, and that from Pilibhit to Gola in Kheri on the 1st April 1891.

The line enters the district on the western borders of pargana. Jahanabad and thence goes to Pilibhit, crossing the Deoha by a good iron-girder bridge, and then turns south-east traversing parganas Puranpur and Pilibhit and passing into the Shahjahanpur district after a course of 48 miles. There are stations at Shahi, Pilibhit, Shahgarh, Puranpur and Dudhia Khurd or Dharmapur. There was formerly a station at Mala in the forest between Pilibhit and Shahgarh, but it was abandoned on account of the small traffic and the extreme unhealthiness of the place.

(2) The Pilibhit-Carewganj line.—This was built by and is worked by the Rohilkhand and Kumaun Railway. It was opened in January 1912. It runs due south—crosses the Katna river by a girder bridge and thence into Shahjahanpur district after a

course of 27 miles. It passes through parganas Pilibbit and Bisalpur and has stations at Pauta, Bhopatpura near Barkhera, Sherganj and Bisalpur. This extension has had a marked effect on the trade of these stations especially on Bisalpur, offering an easy outlet for material that hitherto had to be carted a distance of at least 20 miles.

The Pilibhit Tanakpur.

This is also a metre gauge track built by the State and worked by the Rohilkhand and Kumaun Railway. This line was opened on 15th May 1912. The line starts from Pilibhit and running in a north-easterly direction crosses the Khakra river by an iron girder bridge leaves the district and passes into Naini Tal district after a course of 15 miles. It passes through pargana Pilibhit and has stations at Pilibhit-Kachheri, Neoria and Majhola. This branch should have a good effect on the trade in forest produce and in the grain grown in the north of the district as well as opening up an outlet for the local banias to trade with the Nepalese, Kumaunis, and Tibetans at Tanakpur, which is an important market for hill produce.

Pages 83-84.—CENSUS 1911.

During the decennium 1901-11, the population of the district increased by 17,278 or 3.67.

The increase was 1,082 in the Pilibhit tahsil, 2,555 in the Bisalpur and 3,896 in Puranpur tahsil.

Page 133-134.—Excise Administration.

The contract system was introduced into the district on 1st April 1909. The country-spirit is now supplied by Messrs. Carew and Co. of Shahjahanpur and is sold at fixed prices to licensed vendors.

Each tahsil has a bonded-warehouse in charge of an Excise Inspector who is responsible for supervision and all the preventive work in the tahsil.

On 1st of April 1910 the rate of duty for the town of Pilibhit was raised from Rs. 2-4-0 and Rs. 1-8-0 to Rs. 2-10-0 and Rs. 1-12-0 per gallon of 25° and 50° under proof liquur respectively.

Opium.

With effect from 1st April 1909 the sale of opium by the treasurer or his agent has been discontinued.

Page 130-131.—Police Force.

The police establishment maintained by municipalities has been provincialised with effect from 1st March 1906, under G. O. No. 366—XI—214D, dated the 3rd February 1905.

Under G. O. No. 2205—XI—640D, dated the 3rd July 1911, the towns administered under Act XX of 1856, have been relieved of the police charges with effect from 1st April 1912.

Page 143-144.—DISPENSARIES.

The dispensary at Bilsanda, built by Lala Bhagwan Das was opened to the public on June 26th, 1910.

· It has been made over to the District Board, the founder contributing an annual grant of Rs. 300.

The dispensary at Madho Tanda, the gift of Musammat Sunder Kuer, is now under construction.

Page 179.—BISALPUR TOWN.

The town is now connected with the head-quarters of the district by the Pilibhit-Shahjahanpur extension of the Rohilkhand and Kumaun Railway.

The existing octroi tax will be replaced by a tax on circumstances and property with effect from April 1st, 1914.

In 1911 with a view of improving the drainage of the town a survey was taken and the services of an overseer of the sanitation department were obtained for the purpose. But owing to the limited resources of the municipality the project is in abeyance.

Gazetteer of Pilibhit.

BAREILLY.

Supplementary notes and statistics to

VOLUME XIII

OF THE

District Gazetteers of the United Provinces of Bareilly and Oudh.

ALLAHABAD:

Printed by W. C. Abel, Offg. Supdt., Government Press. United Provinces.

1914

Alterations and Additions to Part A of the Bareilly District Gazetteer bringing it up to date (1913-14).

CHAPTER II.

IRRIGATION.

Various improvements were made between 1909 and 1912 in the canal system. These include masonry head-works to control the monsoon supply and escapes to control floods in the streams above the masonry dams, but the most important works are the remodelling of the weirs on the Choreli and Dhora rivers, a cut from the Kichcha canal to supplement the Dhora supply, and a remodelling of the Upper Kichcha canal.

BANKS.

A district co-operative bank was started in 1912 to finance registered co-operative credit societies.

MANUFACTURES.

A match factory was started in 1912-13 near the Shahamatganj goods station by a company called "Northern India Timber, Ld." The proprietors are chiefly Cawnpore merchants who have obtained timber concessions in the Tarai forests. An ice factory with modern plant has also been started in Civil Lines, near the Company Bagh. There is an older ice factory adjoining the College. Steam flour mills have also been started in the city.

CHAPTER III.

RELATIONS BETWEEN LANDLORD AND TENANT.

In the northern tracts where grain rents are still common some of the landlords of villages whose occupancy tenants obtained commutation to cash rents at settlement are engaged in constant attempts to secure reversion to grain rents.

CHAPTER IV.

POLICE FORCE.

The town police of Aonla was in 1913 abolished and replaced by men of the provincial force.

HEMP DRUGS.

The contract for the whole district was farmed in 1909, but in 1912 the contract was again given by tahsils. The duty on charas was raised to Rs. 12 per seer from 1912.

OPIUM.

Sales by the Government treasurer and his agents were stopped in 1910 with the apparent result that retail prices were forced up and consumption diminished. The rise in prices probably imposed a check on smuggling.

TELEGRAPH.

A combined post and telegraph office was opened at Izatnagar in 1912.

MUNICIPALITIES.

From 1910 the Government appointed a non-official chairman in place of the District Magistrate who had till then held the appointment ex officio.

In 1910 the municipal board initiated a scheme for the extension of the city area by acquiring practically the whole open area between the Naini Tal road and the (eastern) Pilibhit road to the north of the city as far as Izatnagar station. Funds were provided by a loan from Government. It was intended to lay out the area in building plots, after arranging for metalled roads, drainage &cc., but the acquisition of the land was not completed by 1913.

ACT XX TOWNS.

In 1911 the Government assumed direct responsibility for the cost of the town police, placing at the disposal of the town funds the amount formerly raised locally to be spent on the force in the towns and thus providing money for expenditure on sanitary improvements.

EDUCATION.

The Bareilly College ceased to be affiliated in law in 1909, but from 1888 it has been affiliated up to the intermediate standard in science.

The district high school was made a provincial institution in 1910 being removed from the control of the District Board in that year.

The year 1912 saw the commencement of a liberal policy in the matter of special grants towards education, the result in Bareilly being the immediate restoration of a number of primary schools that had been closed for want of funds, the opening of new schools, the provision of new buildings and great improvements in equipment.

P HARRISON, Collector.

Gazetteer of Moradabad.

MORADABAD

Supplementary notes and statistics to

VOLUME XVI

OF THE

District Gazetteers of the United Provinces of Agra and Oudh.

ALLAHABAD:

Printed by W. C. Abel, Offg. Supdt.. Government Press, United Provinces $1\ 9\ 1\ 4\ .$

Volume B of the Moradabad District Gazetteer, vide G.O. no. 1554/I-431, dated the 8th August 1912.

CHAPTER I.

GENERAL FEATURES.

Fage 20.*-Bull Stallions.

The District Board of Moradabad has in the last year introduced to the district two superior species of bulls (one from Hissar and two from Muttra) for the purpose of breeding draught and milch cattle.

Page 22.—Floods.

The villages lying between the Ramganga river and the line of the Rohilkhand and Kumaun Railway that runs from Moradabad to Kashipur have suffered in recent years from floods from the Dhela river owing to the want of adequate waterways along the railway line. This railway line was opened in 1908. Even before that the Dhela Nadi when in flood would put the country between it and the Rajehra Nala and Ramganga under water; but the depth would be only a foot or two and the duration of the flooding would be a question of an hour or so only. The interposition of a long continuous solid embankment by the railway, however, has radically changed the situation.

In 1910, there were heavy floods along the Dhela and Ramganga in July, August, and October and this Rohilkhand and Kumaun Railway embankment for a few miles up from Moradabad held up the water for a considerable time until heavy damage had been done to human life, cattle, and other property. In the end the embankment itself gave way in a considerable number of places. This bursting of the embankment relieved the villages to the west, but on the other hand, great damage to the country to the east was caused, the pent-up waters, thus suddenly relieved, forming a kind of tidal wave, which tore over the country and among other things swept away the bridge over the Rajhera Nala. The sequel to this flood, however, was not, as would appear to have been advisable, the provision of a sufficient number of waterways under the embankment, but has been merely the raising of the height of this embankment by about 3 feet in 1911-12

These page numbers refer to volume A of the Gazetter.

with a corresponding broadening of it, with a view, as is the professed policy of the Rohilkhand and Kumaun Railway administration, to making it strong enough to withstand any flood however great. And from this point of view the strengthened embankment no doubt answers its purpose effectively. There was again, in September 1912, another heavy flood, which, besides inflicting heavy losses and great hardships upon the inhabitants of the tract in question, west of the embankment, caused great administrative anxiety and difficulty to the district civil officials. A large number of villagers were caught by the flood and had to spend the day and the night perched on trees in the driving rain. Over fifty people were picked off the trees by a boat, got to the place with great difficulty, during the night of the 2nd September 1912. Fortunately on the morning of the 3rd September the rain ceased and the flood began to subside, but had the rain not ceased, and had the flood level risen or persisted, some serious loss of human life might have ensued. As it was, one man was drowned outright and another man though rescued from drowning died from the after-effects. The people saved their cattle and grain stock, but suffered much loss in the damage to their houses and crops. Both in 1910 and 1912, relief had to be given to the zamindars and tenants of the villages affected in the shape of remissions, suspensions and postponements of revenue and rents, and in the grant of takavi.

Both in 1910 and 1912, the railway administration was addressed by the Collector with a request that adequate waterways should be provided, in order to relieve these villages from this recurring liability to flooding—but his representations were not favourably considered. A general reference has since been made in the matter to the Local Government which, it is understood, has addressed or will address the Railway Board on the subject.

Heavy floods occurred also in 1910 along the Ganges Khadir country in the Hasanpur Tahsil, resulting in some loss of cattle and even human life, and necessitating the grant of relief in revenue and rents—while in 1912 a flood in September along the Gangan Nadi injured some riverain villages in the Amroha and Moradabad tahsils, and swept away a pier of the girder bridge on the Moradabad-Meerut road, some 5 miles from the city.

There has also been some deterioration in the villages of the Thakurdwara tahsil along the Ramganga, owing to fluvial erosion and deposits of sand—while some of these villages have suffered damage also from the wild, or semi-wild cattle, of Raini of the Bijnor district and from the ravages of wild pig. These villages are however under short-term quinquennial settlements, and their assessments are being revised this year—while measures to deal effectively with the wild cattle and pig are under consideration.

Page 23 .- MALARIA.

During the period from 1902 to 1912 the average mortality from fevers rose to 42,039 the year 1908 giving the highest figure, 70,523, when Malaria was epidemic in the district as well as in the provinces.

Page 25, -PLAGUE.

Inoculation against plague appears to be getting more popular with the people as they are experiencing its benefits by enjoying immunity from this malady after being inoculated; and the prejudice against inoculation is being overcome gradually.

All the present sub-assistant surgeons employed in this district in outlying branch dispensaries are certificated inoculators; and the number of inoculations done during 1919, 1911, 1912, and 1913 were—

| | | | | | | fumber of soculations done |
|------------|------------|------------|----|-----|-----|----------------------------------|
| 1910 | •• | | •• | • • | | 4,183 |
| 1911 | •• | •• | | | •• | 5,453 |
| 1912 | •• | •• | •• | •• | •• | 3,214 |
| 1913 (from | January to | April only |) | •• | • • | 284 |

Page 26.-MALARIAL TRAVELLING DISPENSARY.

During 1910 a Malarial Travelling dispensary was started in this district in July as a trial for six months and it proved a successful movement. During 1911 in July the Travelling dispensary was again sanctioned and is still working regularly in the district. During the 2nd halves of the years 1910, 1911, and 1912 the cost of the institution was met by Government and during the 1st half of 1912, it was met by a contribution from the District Board. The following table will show the

particulars of the work done upto date and the total cost incurred.

THE LEPER ASYLUM AT MORADABAD.

The local subscriptions for the Leper Asylum at Moradabad are at present practically nil. The income comes from the proceeds of investments of previous donations, from contributions from the four Municipal Boards of the district, but principally from Moradabad and from Rs. 500 given annually by the Edinburgh Mission. The Leper Act (III of 1898) has now been applied to the district and this asylum has been made a compulsory asylum under that Act for pauper lepers found within the limits of the Moradabad and Amroha municipalities.

The Tigri fair attracts to the district a large number of lepers for the sake of the alms which the pilgrims give on such occasions.

Page 36.—Subsequent Sarda Canal Irrigation Project.

The Irrigation Commission, concluding that the supplies available for the Upper and Lower Ganges and Agra canals were inadequate for their needs, and being of opinion that certain tracts at present outside the canal influence should be furnished with canal water, and also that the Western Jamna canal in the Punjab required a larger supply during the cold season, recommended the investigation of the possibility of utilising the abundant supplies going to waste in the Sarda river to supplement the supply from the Ganges river to the Lower Ganges canal, since this would admit of a certain volume being transferred from the Ganges canal to the Eastern Jamna canal,

an equivalent volume from the latter for the use of the Western Jamna canal being thus set free.

Reconnaisance surveys were put in hand in the cold season of 1903-4 and in 1905 rough estimates of cost for feeders from the Sarda river near Banbasa to the Ganges near Narora and from the Ganges canal near Roorkee to the Eastern Jamna canal near Nanauta were submitted to the Government of India. After return for certain modifications, the Government of India accepted the revised proposals but ordered that a more detailed project should be drawn up for the Sarda Ganges feeder. Surveys accordingly were started in the cold weather of 1908-9 and finished two years later: the detailed project was submitted to the Government of India in Ostober 1911, and is still under consideration.

The proposals contemplate the taking out of a feeder canal from the Sarda river at Solani Got which will run in a westerly direction through the Rampur State to Moradabad.

Here the feeder will cross the Ramganga river by a level crossing, and swinging round will follow a southerly course and fall into the Ganges at Rajghat, 3 miles above Narora the head of the Lower Ganges canal.

The paramount consideration of a suitable crossing of the Ramganga has determined the alignment of the canal where it enters the Moradabad district and the circumstances admit only of the southern portion of the district being brought under command. The culturable area commanded in this district is about 68,000 acres and provision has been made in the project for the irrigation of some 13,600 acres or 20 per cent. of the culturable area commanded.

CHAPTER II.

AGRICULTURE AND COMMERCE.

Pages 45-6.—The Famine of 1907-8.

The monsoon of 1907 did not set in till late in July with the result that the sowings for the kharif were considerably delayed though the area actually under cultivation was larger than that of the previous years.

The three eastern tahsils Bilari, Moradabad and Thakur-dwara received a larger amount of rain than the three western

ones, Hasanpur, Amroha, and Sambhal. No rain fell from the 28th August 1907 till the 10th January 1908. Amroha and the bhur tracts of Hasanpur were most affected and suffered severely. In the former the outturn was about five annas in the rupee and in the latter only very slightly better. Taking the district as a whole the proportion of the total yield to the normal for each of the main kharif crops was estimated in November 1907, as follows:—

| | | | | | 1 | Per cent. |
|-------------|-------|-----------|-------------|-----|-----|----------------|
| Bajra | •• | | •• | •• | •• | ϵ_{0} |
| Juar and ch | ari | | •• | •• | •• | 45 |
| Maize | • • | | | •• | •• | 35 |
| Urd, moong, | moth, | &c | | •• | | 60 |
| Early rice | | | | | •• | 30 |
| Late rice | | | | | • • | 15 |
| Cotton | | *16 | nulia dilun | | | 75 |
| Surgarcane | | Section 4 | | E\$ | | 60 |

As a result of the dryness of the soil due to the untimely cessation of rain the succeeding rabi cultivation was considerably under normal, the area being only 4,08,240 acres against a normal of 5,90,000 acres; and preliminary watering (paleo) had to be done in most places before sowing could be carried out at all.

The famine was not, on the whole, very severe in this district, although the very poor and others of respectable but impoverished families suffered considerably.

Supplies of grain were sufficient in the bazars and no special difficulty was experienced with regard to the supply of fodder for cattle throughout the whole period of agricultural depression. Suspensions and remissions of land revenue amount ing to Rs. 2,97,621 and Rs. 2,861 respectively were sanctioned by the Government and an allotment of two lakhs was placed at the disposal of the District Officer for distribution as takavi.

In the three large towns of Moradabad, Sambhal, and Amroba and at the Haburah colony in the Amroba tabsil the needy residents—chiefly pardanashin widows—were given gratuitous relief at their homes. Recommendations were made by the local residents and the money was distributed through non-official agency. A civil work was sanctioned to afford employment to the Haburahs but they refused to work on it. Gratuitous relief continued from the beginning of January to June 1908, in the towns of Moradabad

and Sambhal, while in Amroha and the Haburah colony it had to be kept open till a few days after the close of that month, when the monsoon broke everywhere in the district. The largest number of persons on the list of gratuitous relief was 1,496 as on the 1st of February 1908, and the total expenditure on this account amounted to Rs. 13,450, Rs. 500 received from the Indian Peoples Famine Relief Trust Fund was spent on blankets for the poor of the towns.

The following gentlemen were amongst the principal subscribers in the district to the Indian Famine Charitable Fund:—

| | | | Ra, |
|----|--|------|-------|
| 1, | Mahant Kirpal Ban of Salempur | | 1,000 |
| 2. | Sahu Tekchand of Hasanpur | | 750 |
| 3, | Raja Kishen Kumar of Sahespur | | 500 |
| 4. | Kunwar Laltu Singh of Moradabad | | 500 |
| 5. | Maulvi Khalilur Rahman of Bachraon | | 500 |
| 6, | Sahu Ram Rattan Rai Saheb (since dead) and | Sahu | |
| | Ram Gopal | | 500 |
| | Seasons since the Famine. | | |

The rains of 1911 gave for a long time isome cause for anxiety—as they were considerably delayed—and the kharif harvest was moderate only. The ensuing rabi however of 1912 was magnificent and gave a record rabi harvest for the district.

The kharif of 1912 was on the whole good—except in the Bhur of Hasanpur tahsil, and the rabi of 1913 generally moderate to fair—about an eleven to twelve-anna crop for ordinary crops. The sugarcane crop however was good. The cotton crops of the district in the last three years have been poor and the progress of the Mills at Chandausi have suffered a check, but only temporarily it is hoped.

Pages 47-48.—The Prices Enquiry Commission.

The Committee appointed in 1910 by the Government of India to enquire into the rise of prices generally sent one of its members to Moradabad in March 1911, and this gentleman took the evidence of the leading zamindars and traders of this district. The report of the committee has been presented to the Government but has not yet been published.

Page 49.

The commercial prosperity of the district has continued so far to increase. In 1909 the Allahabad Bank opened a sub-agency at

Chandausi which has been doing very good business and has been of great help to the traders in that town. In 1912, a joint stock bank whose head quarters are at Allahabad called the Co-operative Bank opened a branch at Moradabad. Sahu Ram Rattan of Moradabad and Sahu Nand Kishore of Amroha are now dead but their business is being carried on by their sons. At Amroha and Sambhal the Municipal Boards have abolished the octroi tax from 1st April 1913 and the Chandausi and Moradabad boards are taking steps to substitute a terminal tax for octroi. These changes, it is expected, will give an additional impetus to trade.

At Chandausi the number of spinning and ginning mills has gone up to eleven and there is every likelihood of a further increase. The Spinning Mill at Moradabad had not been doing well for some time; but about two years ago, Lala Harkishen Lal well known in the Punjab for his industrial enterprise, took the working of the mill into his hands and it is said considerable success has been attained.

The Shiahs of Amroha have also wisely turned their attention to industrial enterprise and have now three mills manufacturing sugar on the Hadi system. They do also the grinding of wheat into flour. One at least of these is said to be making good progress. At Moradabad a sugar and flour mill owned by Muhammad Azizul Rahman Khan and others was opened in 1912. It is called "The Lupton Flour Mill" after the present Collector, who officiated at its formal opening.

Signs are not wanting in other ways that the residents of this district are now turning their attention to commercial pursuits.

Page 50, Middle.—THE DISTRICT CO-OPERATIVE BANK.

In addition to other banks there is the District Co-operative Bank, an institution which was started in 1906 and has already achieved considerable success. In 1906-7 there were 260 affiliated societies in existence in the Moradabad, Amroha, and Bilari tahsils with a working capital of Rs. 1,40,000. The system of affiliated societies guided by the principle of joint and several liability continued [till the close of the year 1909 when the number of societies had raisen to 326 with a working captal of Rs. 2,36,309. Early in the year 1910 the system of independent rural banks was started. The members elect their own managing "Panchayats"

select good and reliable members, accumulate their own reserves, and subscribe for their own shares and make their own deposits in their banks, the latter sums now amounting to about Rs. 13,000. This has done much towards stimulating thrift and self-help. The old societies are gradually being re-organized into independent banks, there being only 136 affiliated societies now whilst the number of independent banks has risen to 116. Rs. 1,35,100 are invested with the affiliated societies and Rs. 2,23,000 with the independent rural banks. Last year the rate of dividend was declared at 10 per cent.; but this high rate is now discouraged in order to allow larger accumulation for reseves. The rate of interest to societies has been lowered from 121 to 12 and 10 per cent. per annum Rs. 65,300 are lent to societies outside the district at 7 per cent. There are societies now in each tahsil of the district. There is springing up a great demand for these rural banks but a rapid expansion is not allowed as preliminary training and the selection of members make more for the strength of the co-operative movement than does a mere investing of large sums of money in indifferent societies.

Large banking families now seem more inclined to lend directly to co-operative societies and at lower rates of interest.

Two central banks have now been opened recently, one at Kanth, with Chaudhri Dharm Singh, Honorary Magistrate, as manager, and the other at Sahespur, with Kunwar Raj Kumar, Honorary Magistrate, as manager.

Fairs.

The great bathing fair at Tigri on the Ganges attracts every year a large number of the agriculturists of this district. In 1911 the District Co-operative Bank held two meetings at this fair at which the aims and the methods of the co-operative movement were explained to the agricultural public assembled there, and on two nights a co-operative drama was staged to bring home vividly to the peasant population the advantages of co-operation. Great interest was aroused; and in the following year 1912 the Co-operative Bank and the District Board combined to hold an Agricultural and Industrial exhibition at the time of the bathing fair. All the principal agricultural and industrial products of the district were exhibited including the superior varieties of

seeds introduced by the agricultural department. A cattle show was held also. The mela this year (1912) was exceptionally large (some 3 to 4 lakhs of people attended it) and the number of people who visited the exhibition was enormous, over three lakhs. Many of the leading zamindars of the district sent interesting exhibits of grain or implements which they have introduced in their estates. Demonstrations in sericulture and silk weaving were given by the Salvation Army and the Government silk farm of Shahjahanpur. The Government weaving school and the Salvation Army Haburah settlement of Moradabad showed improved handlooms at work. Munshi Kunjbehari Lal of Kunderkhi, who has been experimenting with the cultivation of saffron on a commercial scale in this district, exhibited some specimens of his products. The cultivators showed a very great interest in everything exhibited. In consideration of the decided success attained it is intended to make the exhibition an annual event.

Pages 57-8.—Communication.

Roads.—The aim is being kept in view to connect Moradabad with the outlying tabsils by metalled roads. A project for about 1½ lakhs has been sanctioned for metalling the Moradabad-Bilari-Chandausi road.

The Raja of Sahespur has contributed Rs. 35,000 towards the cost, and work has been commenced on the Chandausi-Bilari section.

Railways.—Important additions to the existing lines have been made recently. A new branch line now runs north from Gajraula in the Hasanpur tahsil to Chandapur in Bijnor district. The stations in this district are Bachraon, Sherpur, and Dhanaura.

Another branch runs south-west from Raja-ka-Sahespur through Sirsi to Sambhal. This was opened to traffic in June 1912 and has already given a powerful impetus to the grain trade of the place.

Bungalows.—The staging bungalow at Ganeshghat has been abolished and dismantled. The towns of Amroha and Chandausi also possess inspection houses, permission to occupy which can be obtained from the Chairmen of the Municipal Boards at these places.

CHAPTER III.

Fages 65-66.—THE PEOPLE.

The Census of 1911. The latest Census shows again a rise in the population from 1,191,993 in 1901 to 1,262,933. This is remarkable, as in the provinces as a whole there was a decrease of population by ('9) per cent. owing to the ravages of plague chiefly, and of malaria.

All tabsils shared more or less in the increase of population and the largest increase (22,327) occurred in tabsil Hasanpur. It is a noteworthy fact that the population of this district has been steadily increasing since the Census of 1872. The mean density of the whole district was 553 to the square mile—a rate which is higher than that of all the other districts of this division excepting Bareilly, in which the mean density amounted to 693. The highest mean density was 809 in Moradabad, next came Bilari with 667, Sambhal with 567, Amroha with 566, Thakurdwara with 506, and Hasanpur with 335 to the square mile.

Pages 80-81.—Christianity.

The 1911 Census figures for the Christian population are— Total Christian population of Moradabad ... 17,023. Indian Christians ... 16,576.

The Bishop Parker Memorial High School has recently erected a large and very fine boarding-house with accommodation for some 300 boys and has lately received a grant from the Government for the construction of a new science block. And as the present site of the school, situated right in the city, is very cramped, and expansion there is both difficult and costly, the Mission now proposes to acquire land just outside the city opposite its new boarding-house, and to put up an entirely new school building, utilising the present building in which the school is held as a chapel only for worship—for which purpose, indeed, it was originally designed.

The area of the Christian cemetery in Moradabad has in 1912 been doubled by the Government acquiring a large piece of land in continuation of the previous area.

Page 81.

The Arya Samaj has continued its activity. It has now a branch also at Bahjoi. A new feature which it has endeavoured

to establish this year (1913) in the district, outside the city of Moradabad where it has gone on for some years past, is the Nagar Kirtan, processioning round the streets, with or without music, singing bhajans and making speeches. As there was violent opposition manifested to this proposed new procedure at Aghwanpur from the orthodox Hindus, the Nagar Kirtan at that place was prohibited; and it was similarly prohibited at Bahjoi. At Sambhal, however, a day's processioning took place before the district authorities were informed of what was intended; in the speeches certain remarks extolling the tenets of the Arya Samaj disparaged incidentally the beliefs of Non-Arya-Samajists but the latter exercised self-restraint.

In Chandausi it is stated that the Arya Samaj has obtained a great influence among the Chamars with the result that these have gone in largely for temperance or abstention from intoxicating liquor. There was certainly an appreciable decrease in 1912 in the amount of country liquor shown as consumed in Chandausi.

Page 84.

The following newspapers and periodicals are published at present (1913) in this district:—

No newspaper in English is issued in this district.

The people.

Amongst the notable people who have died since the last Gazetteer was compiled may be mentioned Sahu Prasadi Lal (vide page 95 of the Gazetteer) who died in February 1912, leaving four minor sons whose estate has been taken by the Court of Wards for management. Kunwar Ganga Sahai, brother of the Raja of Sahespur (vide page 89 of the Gazetteer), died at the end of 1911

and has been succeeded by his son, Babu Govind Sahai, who has been made an Honorary Magistrate in his father's place.

Thakur Durga Singh of Katghar (vide page 90 of the Gazetteer), died in March 1913, while Rai Sahib Sahu Ram Rattan (vide page 93 of the Gazetteer), the well-known Government Treasurer and banker, died in February 1913.

Sahu Sabta Prasad (page 94, Gazetteer), died in 1911 and has been succeeded by Sahu Param Kirti Saran, who is still a minor; and Misra Sital Prasad, the banker of Sambhal (vide page 92 of the Gazetteer), died towards the end of 1912. The family is still a joint Hindu family. He has since been followed to the grave by Misra Ajudhia Prasad, and the head of this family is now Misra Sri Ram. Other members of the family at present are Misra Benarsi Prasad (son of the deceased), a vakeel at Moradabad, Misra Ganga Prasad, Esq. (son), who is a Barrister-at-Law practising at Aligarh, Misra Beni Prasad (son), who is a deputy collector, and Misra Shyam Sunder (a nephew of Misra Sital Prasad), who is now an Honorary Magistrate and occupies his late uncle's seat on the Sambhal Bench.

Page 87.—Present STATISTICS.

There are now 8505 mahals (1913), exclusive of milks. One or two small mahals have disappeared owing to diluvion in the streams, but the increase (from 8,308) is due to the frequency of partitions referred to in the Gazetteer, which has not abated. There are still large numbers of partition cases pending in the district, more specially so since the conclusion of the recent settlement operations. The above total of 8,505 mahals comprises 2,669 held by single proprietors, 4,150 held by joint owners, 28 held in Bhaiyachara tenure, 803 held in perfect pattidari, and 849 held in imperfect pattidari.

Page 99.

The estates of the maulvis of Bachraon have since become hopelessly embarrased and are at present becoming practically lost to them. Quem Dous vult perdere, prius dementat; they had turned a deaf ear to several preceding Collectors who desired to help them by putting their estates under the Court of Wards.

When at last creditors began to foreclose, and decrees were obtained and sales began to take place, the 2 brothers, Maulvis

Khalil-ur-Rahman and Jamil-ur-Rahman, at last, in 1911, presented an application, requesting Court of Wards' management, and an exhaustive enquiry was made at the beginning of 1912 by Mr. Lupton, Collector of Moradabad, into their affairs. But it was found that matters were then too far gone. Liabilities amounting to roughly 19 lakhs were discovered while the net annual profits did not exceed Rs. 51,493 per annum, i.e. much less than the interest on the liabilities at ordinary or even special concessionable rates. In the report to the Board of Revenue it was remarked that it was not possible for the Collector to recommend that this estate be brought under the Court of Wards; for it was not possible at present to formulate any scheme for the liquidation of its debts or even to pay interest of them at 6 or 5 per cent. In consideration, however, of the history of the family the Collector suggested that the estate might be taken over for a year or two as an experimental measure at least, so that a hold might thereby be got upon the creditors and it might be seen whether any terms from them favourable to the estates could be secured. Government, however, saw no prospect of any successful remedial action being taken to save the estates, or even to keep their owners going, and agreed with the Board of Revenue that they could not be taken under the Court of Wards.

Subsequently, on the passing of the new Court of Wards Act the Government ordered an enquiry to be made into the affairs of the third brother, Maulvi Makbul-ur-Rahman, who had not joined his other two brothers in the application of the previous year. Mr. Lupton again made an exhaustive enquiry and found the liabilities to be nearly five lakhs and the annual profits to be Rs. 23,769 only. The Government again came to the conclusion that it was impossible to take the estate under the Court of Wards. Later, a deputation of the leading zamindars of the district waited upon His Honour the Lieutenant-Governor on the occasion of his visit to Moradabad in March 1913, in order to arge upon the Government their desire that the Government should intervene somehow to save these maulvis' estates from utter extinction and the Lieutenant-Governor undertook to re-examine the whole papers and see what could be done. But subsequently orders were received that the Government after again examining

the papers regretted that no way could be found to save the estates, and reluctantly had to re-iterate the former orders that the Court of Wards could not undertake the management of these estates.

The shares of Maulvi Jamil-ur-Rahman have since passed practically wholly into other hands by sales, in execution of decrees and the property of Maulvi Khalil-ur-Rahman is fast following them.

Page 109.

With reference to the concluding sentence of the section "Landlord and tenant" on page 109 of the Gazetteer—the relations between landlords and tenants in Hasanpur especially, and in some other places still continue to be bad. Various unscrupulous devices are employed by the zamindars, in order to break down the commuted cash rents, or to oust the occupancy tenants; and the situation claims constant watchfulness, on the part of the revenue officers.

CHAPTER IV.

Administration and Revenue. Page 112.—District Staff.

The sanctioned magisterial staff has been increased by one in accordance with Mr. Pike's scheme and should consist now of a Joint Magistrate or other officer with the powers of a J. P., six other officers Deputy or Assistant Magistrates and Collectors with full powers, one Treasury Officer, and one other officer with less than full powers. The six tahsils as before constitute separate sub-divisions, but the police circle of the sadr Moradabad kotwali has been made into a separate seventh sub-division.

Two new benches of Special Magistrates were constituted in 1913, one at Thakurdwara, the other at Bachraon. They have three magistrates on each and exercise 3rd class powers only.

Babu Sheo Narain, a prominent Rais and Durbari of Amroha, has been made a special magistrate with second class powers and a separate court. His place on the Amroha bench has been taken by his cousin, Babu Har Narain. On the judicial side, Budaun which had hitherto formed a part of the Moradabad judgeship has now (1913) been formed into a separate judgeship. There are at Moradabad beside the District and Sessions Judge, an Additional

Judge, and Assistant Sessions Judge, a Subordinate Judge, and two Munsifs.

On the revenue side four Honorary Assistant Collectors have been appointed, three at Moradabad, and one at Amroha, for the disposal of such revenue cases as are made over to them by the Collector. Two of these, retired Deputy Collectors, have 1st class powers, and do practically all the 1st class Assistant Collector's work under the Tenancy Act 11 of 1901 of the Moradabad and Sambhal tahsils. The other two Honorary Assistant Collectors, retired Tahsildars, have 2nd class powers only and divide with the Tahsildars of Moradabad, Amroha, Hasanpur, Sambhal, and Bilari tahsils, the work of rent and revenue suits under the Tenancy Act. These Honorary Assistant Collectors so far have each and all got through a large amount of case work annually and given appreciable relief to the paid staff.

The most pressing, need of the district at present is the provision of adequate accommodation for the head quarters staff. Inspections made during 1912, by Sir George Knox, Judge of the High Court, and the Honourable Mr. Baillie, Senior Member, Board of Revenue, resulted in the acceptance of a proposal that a separate set of buildings should be built for the Civil Courts, and that the portion of the combined block of buildings at present occupied by them should be given over to the collectorate and magisterial offices. Correspondence has since taken place but some definite action must be taken in the near future in order that the district work may be carried on.

Page 126.—CESSES AND POLICE.

One important change has been made recently. The Act XX towns have now been relieved of all charges for the maintenance of the police—which charges are to be met by the Government. The money thus rendered available is for expenditure on works of local improvement in these Act XX town areas.

Page 128.-JAIL

The jail has recently been made more secure by the heightening of the outer walls and by the reconstruction of the upper portion of one of the inner barracks. There was an escape from this jail at the end of 1911, followed by another in July 1912, of two dangerous long-term prisoners. The escaped prisoners were all

recaptured and a warder and a convict watchman were convicted of allowing the escape and sentenced to 4 years' imprisonment.

Excise.

The excise revenue has continued to increase steadily, the net receipts for 1912-13 having been Rs. 2,86,745, and the lease and the licence fees for 1913-14 having been given for Rs. 1,10,640.

There is reason to believe that cocaine smuggling—a new feature—has sprung up and goes on to some extent.

The still head duty for country liquor distilled at the Morada-bad central distillery is Rs. 3 per gallon, while in the Rampur villages of the Suar and Tanda parganas of that State, which are wedged in with British villages at the north-east corner of the district, the still head duty is Re. 1-8-0 only. In view of temptation to smuggling, a special arrangement has just been sanctioned, whereby liquor paying the special reduced duty of Re. 1-8-0 is sent in sealed barrels direct from the distillery to Darhial where the barrels are opened under a certificate that the seals are received intact.

Page 133.—INCOME TAX.

Systematic enquiries in recent years (especially in 1911 and 1912) have resulted in a large increase in the income tax from the towns of Chandausi and Moradabad. As regards the latter city, the operations undertaken resulted in 1912 in an increase of 21.6 per cent in the net final assessments over the total figure of the previous year.

Page 135.

Sola Sarai is no longer an Act XX town, having been included within the limits of the Sambhal Municipality in 1909.

Pages 136-7.- PROGRESS OF EDUCATION.

The number of schools both primary and secondary has been increasing rapidly. The upper primary schools at Bilari and Dhanaura have been raised to the level of a middle school. The number of District Board primary schools (boys and girls) now is 145 with 9,030 pupils and there are 80 aided schools with 2,446 pupils. The public of Moradabad has been active in the establishment of private secondary schools. There are now two at Moradubad, viz. the Hewett Muslim High school, and the Hindu

Coronation school, a middle English institution. At Amroha there is a well-kept Muslim English school; while in 1912, the Hindus at Amroha opened a new Anglo-Vernacular school, called the Tejram George Coronation school. The leading spirits in its institution have been Lala Jhabba Lal, a relative of the late Lala Tej Ram, whose widow has provided funds for the school, and Pandit Lal Gopal, Vakil. The school was formally opened by the Collector in the presence of the chief officials and principal Hindu gentlemen of the district. So far it has made a promising start, but badly requires a largely increased recurring income to properly staff and equip it. It has a class for teaching Mahajani and Sarrafi Book-keeping which is said to be popular.

The promoters of this institution have since formed themselves into a registered company and are now setting about to acquire some land for a site for a new building.

The well-known school at Chandausi founded by Sahan Ram Kali, called the Shiam Sunder Memorial High school, has achieved considerable success. It has now a fully equipped science laboratory, with a lecture-hall—and during his recent (1913) visit to Chandausi Sir James Meston, the Lieutenant-Governor, laid the foundation of a second building for residential purposes. The Education department has recognised the school and Sahan Ram Kali has been awarded the Kaiser Hind Medal for her public spirit.

And latterly, Babu Jwala Nath, the honorary secretary of the school, has received the title of Rai Sahib, in recognition alike of his work for many years as secretary of the local Municpal Board, and of his work in furthering education in Chandausi and other public objects.

The education of girls has been making notable progress in this district. The Partap Singh Hindu Girls' school showed the satisfactory result in the Vernacular Final examination of 1912 of passing three girls in the 1st division, two in the second, and one in the 3rd division out of seven girls sent up.

Sir James and Lady Meston visited this institution in 1918 and expressed pleasure with what they saw, and His Honour indicated his willingness to assist the school with a building grant. The existing accommodation has been already much out-

grown. The enrolment is now well over two hundred and boarders come from many outside districts. At Amroha the Municipal Board had to open a new school to meet the increased demand.

Page 138.—DISPENSARIES.

Chaudhrain Jamna Kunwar, widow of Rai Bahadur Dhian Singh of Kanth, has completed arrangements for the endowment of a small hospital at Kanth, the work of constructing which has now been taken in hand.

Sahans Tulsa and Parvati, widows of late Sahu Durga Prasad at Chandausi, have given large contributions for the establishment of a new female hospital at Chandausi, and Messrs. Gokal Chand and Madhoram having also given a donation of Rs. 8,000 and Rai Sahib Chaudhri Gajendra Singh of Narauli having given a piece of land, it has been possible to project a fairly large combined hospital for both sexes—the foundation stone of which was laid on the 9th of March 1913 by Lady Meston. The District Board has also joined in the scheme.

The travelling dispensaries which have been instituted in the district, and have been greatly appreciated by the people during the past two years, have been already referred to.

Page 138.-EUROPEAN WARDS.

During 1910 the provision of accommodation for the treatment of Europeans and Eurasians including railway employés in the district hospital was suggested to the District Board and the railway authorities and after correspondence the District Board and the Manager, Oudh and Rohilkhand Railway, have entered into an agreement that a block consisting of three rooms each 16' × 18' should be built by the Oudh and Rohilkhand Railway as an extension to the private ward block for Indians and the railway would also provide the cost and hand them over to the District Board for future upkeep by the latter. The admission of patients into the ward will be regulated according to the terms laid down in the agreement.

Page 169.—Subsequent History.

One effect of the electoral reforms of Lord Morley and the enlarged Legislative Councils Act has been to increase decidedly the interest taken by the Moradabad public in administrative matters. During the first term of the new United Provinces

Council, 1909-12 the Honourable Babu Brijnandan Prasad, a Vakil of Moradabad, elected as representing the Municipal and District Boards of the Rohilkhand and Kumaun divisions, had a seat, and now (1913) two members from Moradabad, the Honourable Babu Brijnandan Prasad (re-elected in 1912 after a close contest with Pandit Radha Kishen, Vakil, who obtained 21 votes to 23 votes obtained by the Honourable Babu Brijnandan Prasad) and the Honourable Syed Raza Ali, also a Vakil, have seats. The latter represents the separate Muhammadan electorate of the Rohilkhand and Kumaun divisions.

The Hindu and the Musalman Universities deputations visited this district in 1912 and 1911 respectively and both met with receptions from the public which were manifestly gratifying monetarily and otherwise to their promoters.

THE RECLAMATION OF CRIMINAL TRIBES.

On page 126 of the Gazetteer reference is made to wandering parties of Haburahs and Bhantus. For the former a settlement had been made by a former Collector, Mr. Spedding, in the eighties in the village of Newada near Kanth, some land being obtained for them at a favourable rate of rent of four annas per bigha from the local zamindars. A number of Haburahs were induced to settle down here and to devote their attention more to agriculture and basket and string-making and less to wandering and petty thefts. This measure of humanity met with a certain amount of seeming success, though it may be doubted whether there would have been any permanent effect from the necessarily impersonal and mechanical scheme then in operation, and, at any rate, the process of reclamation would have been very slow. And official pressure to keep the Haburahs in the settlement had to be backed up pretty frequently by Government doles for seed and cattle, and even for sustenance. Subsequently for a good many years, the management of the settlement was placed in the hands of Chaudhri Dharm Singh (vide Gazetteer, page 96) of Kanth, who took much interest in the experiment. Later, a number of Bhantus were also induced to join the settlement.

The mixture of Haburahs and Bhantus in the same settlement, however, did not work. The Haburahs are a dirty, degraded, vermin-eating race, very low down in the scale of civilization;

the Bhantus, on the contrary, are a race of stalwart ruffians, hastytempered, and addicted to violent crime, who regard the Haburahs as vermin themselves.

At this stage, the Salvation Army organisation appeared on the scene, and in 1909 the settlement was placed in its hands; and the first step taken was to separate the two tribes. The Government placed at the disposal of the Salvation Army a large strip of land, some 230 odd acres, in Moradabad, which had formerly been the rifle range of the old cantonment, and rented for them also the large Damdama Kothi. The Haburahs were brought into Moradabad and settled on this new land-an enclosure being put up for them at Government cost-while the Damdama Kothi was taken into use as quarters for the Salvation officer in charge of the work, and as a factory for industrial occupations and instruction. The Newada settlement was reserved for the Bhantus, and named Asapur (City of Hope). In 1912, a fine enclosure at Asapur has been put up, with the aid of a grant from Government, capable of accommodating 50 families with stalls for their cattle, and the late officer in charge, Colonel Falcon, Indian Army retired, built for himself a small bungalow. The labour was taken from the Bhantus themselves. Further. 502 bighas of more land in Nawada and surrounding villages, adjoining the land (621 bighas), already in the occupation of this settlement were purchased by the Government in 1912, and given on lease free of rent for the present, to the settlement while steps are being taken to purchase also the former 621 bighas.

These Bhantus at Nawada gave some trouble at first—in 1911 resistance to a nocturnal raid made by them upon the ordinary villagers' crops resulted in the death of one of the latter; some of the Bhantus have been apprehended for thefts in the Kanth Bazar and neighbourhood, while in 1912 seven of them broke away, and were ultimately rounded up as dacoits, and convicted in a gang case tried at Kashipur in the Naini Tal district and sentenced to transportation. But the bulk of them appear to be settling down, so far, in a way that can only be regarded as very promising in view of their antecedents; and if the few "wont-begoods" be weeded out (and the Salvation Army has the idea of

drafting all such away to a separate settlement) or their influence be destroyed, the prospect with the remainder is hopeful. This settlement at Nawada it is intended to restrict to 50 families. The Salvation Army has a large settlement near Kashipur which can take in others. Agriculture only is the present occupation at Nawada, but industries are also to be gradually introduced.

The Haburahs at Moradabad are a race of poor physique and are comparatively quiet, and have given little or no trouble. Briefly, the boys and girls are taught industries in the Damdama Kothi, the able-bodied adults do cultivation, and the old and decrepit wander down through the city to the Ramganga Khadir and return thence in the evening with any alms that the charitable may have given them or with any prey which they may have secured-generally turtles, and the large lizards of which they are very fond. It has been noted as a sign of progress by one observer that the Haburahs now no longer break the backs of these lizards, for the purpose of keeping them alive until they are actually put into the cooking pot. But truly considerable progress has been made, and the remark recorded by another observer that "from a filthy, squalid lot of humanity the Haburahs have now become a respectably clad industrial tribe in the last three years" although enthusiastic, is not much over-exaggerated. Quite a remarkable feature is the fact that already a number of Haburahs are now finding employment in domestic service as grass-cuts, syces, watchmen, and the like, and as shikaris, and that private employers themselves apply for them to the Salvation Army officer in charge of the settlement.

A further very important feature of the Salvation Army work in this district is the recent construction by the Army of a large hospital. The Thomas Emery Hospital, well equipped with all up-to-date appliances, for both indoor and outdoor patients. It is understood that the cost of this, some Rs. 60,000 has been provided from a donation made to the Army Funds for the purpose by a charitable widow in England, who had also supplied the funds for a similar hospital in the Bombay Presidency. This hospital is in the charge of Dr. H. J. Andrews, who has been responsible for the erection and starting of both these hospitals, and has three European nurses attached to it. The hospital is intended not merely for the residents of the several criminal settlements

managed by the Salvation Army, but for all and sundry who may seek its aid. But it is understood that on the Salvation Army's principle of something for something every patient will have to pay some fee, however small.

An excellent site of some 15 acres has been lent for the hospital by the Government on the land adjoining the old rifle range ground already occupied by the Haburah settlement. The formal foundation stone of the hospital was laid by the Commissioner, the Honourable Mr. W. H. Cobb, I.C.S., in November 1912, and the hospital was opened by His Honour the Lieutenant-Governor Sir James Meston and Lady Meston, on the 7th March 1913.

In connection with the Lieutenant-Governor's visit to Moradabad, the Salvation Army held in the Damdama Kothi and its grounds a two days' exhibition of its industries, which exhibition, as also the settlement, were inspected by His Honour.

The Salvation Army has dealt with these Haburahs by forming groups of them, after careful selections based on experiments and observation, and by then assigning to each group the work that seemed most congenial to its members. Each group is then settled down with hope of success to its particular avocation either agriculture, sericulture, weaving or carpentry, or, now service.

As regards agriculture some 100 acres are actually under cultivation by the Haburahs the results of which have been during the past few good seasons, very successful—but the numbers in the settlement are growing and more land is being broken up, and more asked for, and it seems likely that another 100 acres of new land in addition to the 230 acres originally placed at the disposal of the settlement will be acquired by the Government on its behalf.

Silk manufacture and weaving are the two chief industries conducted by the Salvation Army here. In the silk department cocoons are raised from worms reared on the Univoltive French Mulberry and on the Bengal and Mysore Mulberry. Eri silk worms are also reared. The Salvation Army has its own nursery garden for the bush mulberry plant, while ordinary mulberry trees exist along the roads in the vicinity of Moradabad. And of recent years special attention has been given to the planting of more trees of this kind along both the District Board and the Public

Works Department roads. From 20 to 30 Haburahs are employed according to the crop and the season in this department which is said by the Salvation Army to have yielded some of the best results obtainable.

Next, silk reeling is done from the cocoons. Twelve basins are at present being worked, turning out, according to the Salvation Army's own description, the best reeled silk in the market, and arrangments are being made to increase the basins to 50 this year.

This department employs 20 persons. A Bhantu has also been trained in this department and sent away as a teacher of silk industry to another institution.

Weaving is taught and carried out on a number of the Salvation Army's own designed handlooms, and on several others of other patterns and good dasoothis, jharans, sarees, dhoties, towels, and silk cloths of various descriptions and quantities are manufactured. These find a ready market locally. Twelve looms are being worked at present and their number is to be increased this year. At the Agricultural and Industrial Exhibition held at Tigri in 1912, these Haburah weavers were awarded the first prize in the weaving class.

In the matter of carpentry the improved silk reeling hand and pedal machines introduced by this department are said by the Salvation Army to be becoming popular all over India, owing to their effective simplicity and comparative cheapness. There is no doubt that these efforts for the reclamation of criminal tribes, under · the sympathetic but firm treatment applied by its devoted officers. have already had an effect upon the crime statistics of this district, an effect which should increase in the future, and should, it is hoped, by the next generation at least, convert these criminal into decent citizens able to take a place side by side with the ordinary law-abiding population. Another measure recently introduced is that members of these tribes who have come under the operation of the penal provisions of the Criminal Procedure Code, or are conditionally released from prison after conviction for specific offences can now be made over to these settlements, where the Salvation Army undertakes to act as their sureties—thus enabling these persons to be kept out of the jails, while providing them with the

chance of making an honest living amid encouraging influences. The officer who has been from the outset in charge of the Salvation Army operations in this district, is Brigadier Jivanandham, who comes originally from Madras, but has bad experience in this work elsewhere, and it is to him, and his helpers at Newada, that the undoubted, real success which has been attained, is due.

DIRECTORY.

Pages 205, 231, and 253.—MUNICIPALITIES.

Moradabad and Chandausi have now provided themselves with elaborate drainage systems at a cost of Rs. 5,34,000 and 1,60,000 respectively. At Chandausi it needs further extension, and both places require a large and constant supply of water for flushing purposes. At Moradabad the new scheme has given 7 miles of underground sewers and 54 miles of surface drains. The flushing of the former is done at present by means of pulsometer wells and a portable engine, and the surface drains by bhistis and sweepers. But these arrangements afford no prospects of permanent success. The question of constructing water works has now been taken up at Moradabad both for flushing purposes, and also for drinking purposes as the present potable supply is from wells only, situated in the city. The wells are difficult, if not impossible, to keep free from contamination.

A drainage project has been prepared for Amroha, where it is badly needed to improve the sanitary condition of the place but the money required Rs. 2,65,000 is not available.

A park is now being made at Amroha adjoining the Basdeo tank, the cost being defrayed from the Amroha Bansidhar Trust funds administered by the Collector. It will add greatly to the beauty and the amenities of the town. Steps have been taken to provide a public park for Moradabad also, while Chandausi has already laid out a small garden, and named it after Sir James Meston in honour of his visit to Chandausi in 1913. All the municipalities have recently improved their lighting arrangements by erecting a number of incandescent lamps at principal places in the towns.

The rules for election have been revised in all the four municipalities. Amroha has also reconstituted the wards with the result, it is hoped, of lessening racial and party strife over membership of the Municipal Board. In 1913, the Prevention of Cruelty to Animals Act was extended to all the four municipalities in the district and the Lepers Act to Amroha and Moradabad.

Moradabad has made rules for regulating cinematograph shows and other public entertainments involving risk of fire. Similar rules are being made at Chandausi and Amroha. The last mentioned place is also asking for the extension of the new Adulteration of Foods Act.

All the four municipalities are revising the rules for registration of births and deaths. The police is to be relieved of this duty and two independent records will be kept up one by the municipal staff on the report of the mohalla sweepers, the other at certain registering offices on the reports of the people. In view of the great value attached to vital statistics these changes are important. Many radical changes have occurred in the system of taxation in force in the municipalities in this district. Amroha and Sambhal have abolished octroi with effect from 1st April 1913, and substituted a circumstances and property tax, which in each place has given some trouble in getting into working order.

Chandausi has resolved to abolish octroi and have a terminal tax instead. At Moradabad also it has been practically decided to substitute a terminal and a toll tax for the octroi.

Moradabad and Amroha have also imposed a tax on thelas and carts plying for hire. Moradabad has in addition imposed a general tax on wheels and animals, and is about to impose a house tax—the valuations for which have just been made by a Deputy Collector placed on special duty for this purpose by the Government.

This house tax is still regarded with disfavour by the public of Moradabad.

Lastly, this year, 1913, the Chandausi Municipal Board has received a non-official Chairman elected by itself.

The populations of the several municipalities are now— (1911 Census)—

| Moradabad | • • | • • | | 81,168 |
|-----------|-----|-----|----|--------|
| Sambhal | •• | •• | •• | 45,276 |
| Amroba | | • • | | 42,410 |
| Chandausi | | •• | | 22,255 |

The road from Bilari to Chandausi is being metalled. The railway settlement at Chandausi is now small.

With regard to the remarks on page 238 of the Gazetteer that "the water-supply, XX from wells X has always been satisfactory, so that there is no demand for water-works" the remarks above may be seen. The existing water-supply has been recently condemned by the Civil Surgeon.

The drainage works at Moradabad, completed for Rs. 5,34,000 (Rs. 4,84,000 from a loan and Rs 50,000, from a Government grant) still required some modifications and for this the Government has just sanctioned a further grant of Rs. 34,000.

Page 194.—BACHRAON.

This town has now a railway station, called Sherpur Bachraon, about half a mile to its east, on the new line from Gajraula to Chandpur, and the road from the south of the town over the bridge built by Abdul Rahman Khan to the Gajraula-Dhanaura metalled road has (1912) been metalled.

The Maulvis referred to on page 195—have since lost most of their property and influence.

A Bench of Honorary Magistrates has been constituted here 1913, with Maulvi Abdul Hafiz, resident of Bachraon, M. Abdul Majid Khan of Hasanpur, and Lala Piyare Lal of Dhanaura, as the Honorary Magistrates. The population in 1911 (census) was 8,943.

Раде 196.—Ванјог.

The chief road through this town of Bahjoi has been metalled, at the combined expense of the residents of the town and by the District Board, each source contributing half.

The road to the town from the railway station, is also metalled. The population in 1911 (census) was 1,285.

Page 197-8.

The upper primary school at Bilari has since 1st July 1912, been raised to the middle vernacular standard; and the town has a new than abuilding completed and taken into use in 1912, while projects for a new sub-registrar's office, and naib-tahsildar's quarters, and also for enlarging the tahsili accommodation, have been sanctioned. The population in 1911 (Census) was 6,866.

Page 211.—DHANAURA.

This town has a railway station of its own on the new line from Gajraula junction to Chandapur and the road from the town to this railway station is to be metalled. Its upperprimary school has since 1st July 1912, been raised to the middle vernacular standard. The population of the town in 1911 (census) was 4,238.

Page 214.—GAJRAULA.

The Dharmsala close to the railway station was built by one Sahu Kalyan Rai of Hasanpur.

The thana at Tigri is to be removed to Gajraula, and new thana buildings are being erected on a site at the junction of the Hasanpur and Meerut metalled roads.

The population in 1911 (census) was 1,098.

Page 230.—MAJHOLA.

Raja Sheoraj Singh does not even retain Majhaula itself—the whole of this village is recorded in the names of his 2nd and 3rd wives, 13½ biswas out of the 20 in the name of Rani Puran Kunwar, resident at Majhaula, and the other 6½ biswas in the name of Rani Maharaj Kunwar, resident of Isanagar. The Raja's suit for a declaration that this village was his property, was rejected by the High Court of Allahabad, in appeal in 1912, It was held that the Raja had transferred the whole village as gift in or about 1880 to Rani Puran Kunwar as absolute owner, and that the latter had sold 6½ biswas of it in 1884 to Rani Maharaj Kunwar, and that these wives were in possession as owner and that the revenue was always paid in their names, and that the Raja had no title or possession. The Raja has only some ex-proprietary cultivation in this and some other villages yielding some Rs. 3,000 per annum net profits. But he and Rani Puran Kunwar are considerably in debt.

The population of the village in 1911 (census) 2,177.

Page 246.—MUGHALPUR.

The Ramganga river has been cutting away large portion of the lands of this town in the last 2 and 3 years and threatens to cut away more. Representations made in 1912 to the Government have resulted in an Irrigation Engineer of Bijnor being deputed to visit the place and report as to the feasibility or otherwise of protective embankments. The town has a branch of the Arya Samaj whose activity in 1913 prompted it to attempt to inaugurate the Nagar Kirtan here. To this the orthodox Hindus objected strongly, and as a disturbance appeared likely, the Nagar Kirtan was prohibited.

The population of the town in 1911 (census) was 4,868.

Page 248.—MUNDHA.

The Ganeshghat inspection bungalow was abolished and dismantled in 1912, and its site returned to its zamindar owners.

Page 250.—RAJABPUR.

Has also a stand for stallions, in the charge of Chaudhri Rafiuddin. There are three Arab stallions here and one Donkey stallion whose services are largely sought by the owners of mares in the neighbourhood. Chaudhri Rafiuddin, who is a resident zamindar, has looked this stand for many years past and was awarded a certificate of honour on the occasion of the Imperial Durbar at Delhi in December 1911. He is also the contractor for the grass in the encamping ground which adjoins the village site.

The population in 1911 (census) was 1,178.

Page 271.

Sirsi has a railway station on the new line from Dhakia (Raja-ka-Sahespur junction) to Sambhal, and has metalled the road from the town to the railway station.

The population in 1911 (census) was 6118.

The tabili buildings here have been rebuilt in 1911-12, while a new school is also under construction, the old school building being converted in to a good, large boarding-house.

Also a Bench of Honorary Magistrates, has been established here, in 1913, consisting at present of Sahu Brijpal Saran, B.A., the Government treasurer of Moradabad, resident of Thakurdwara, the son of the late Rai Sahib Sahu Ram Rattan, late Government treasurer, of Sahu Ram Kumar of Thakurdwara, and Qazi Sarwat Husain, zamindar of Thakurdwara, son of Qazi Imdad Husain, formerly an Honorary Magistrate of Moradabad. The road from this town to the Aliganj railways station on the Rohilkhand and Kumaun Railway line from Moradabad to Kashipur has recently been re-aligned and improved but is still unmetalled owing to want of funds.

The relief from police charges has enabled the conservancy arrangements in this town to be materially improved, and a useful system of lighting to be given to it.

Lastly, there is a scheme to convert the large piece of ugly waste land consisting of an old tank which was filled in, though somewhat imperfectly, a few years ago into a small park or gardens. The population of the town in 1911 (census) was 8,537.

Page 280.

Ujhari has also a stand for a couple of stallions provided by the District Board from the Civil Veterinary department.

The population of the village in 1911 (census) was 1,433.

General.

The Gazetteer for the Moradabad district was compiled by Mr. H. R. Nevill, I.C.S., in 1909. This supplement is being issued in recordance with G. O. No. 1554/I-431, dated 8th August 1912.

The references are throughout to the pages of the Gazetteer.

Alterations and Additions to Part A of the Shahjahanpur District Gazetteer, bringing it up to date (1912-13).

CHAPTER I.

Page 3 .- THE FOREST BELT.

There is a marked tendency of recent years to fell large areas of forest and open up more land to cultivation.

Page 20.—CATTLE.

The decrease in cattle may be due to the opening of the jerked meat trade to Burma on a large scale.

Page 22.—CATTLE DISEASE.

Inoculation has been showing a slight increase in popularity each year. The Veterinary Assistants were reduced to two in 1912.

Page 28.—OTHER DISEASES.

Plague was worst in the cold weather of 1910-11. Evacuation of houses is never likely to become very popular here as the large Muhammadan population clings to the pardah system and evacuation is felt to involve many difficulties.

CHAPTER II.

Page 50 .- SCARCITY OF 1907-08.

There was scarcity again in 1907-8. The 1907 rains failed, and measures had to be taken to relieve the distress. In October four lakhs of rupees were distributed for seed and kachcha wells. Regular measures of relief were found necessary in December 1907 and were continued till the middle of July 1908. Scarcity conditions were declared from the middle of December. During the latter half of December 6,972 units received gratuitous relief in the city from the Local Charitable Relief Fund. From 1st January 1908 gratuitous relief was started in Shahjahanpur city and the towns of Tilhar, Katra, Khudaganj, Jalalabad and Pawayan from state funds. In villages relief was commenced from January 20th and extended gradually as necessity arose, the highest number in relief was reached on 14th March 1908 when the figures were:—

Relieved by doles ... 2,980 3,035
Poor houses ... 55

The largest number of workers on aided works was 1,747 on 9th May.

With the ripening of the rabi crop the distress in rural tract was much reduced and made it possible to close village relief from 11th April in nine out of 13 relief circles. The remaining circles, viz. the Bankati, pargana Jamaur, the northern parts of parganas Nigohi and Jalalpur and the northern parts of pargana Khutar had suffered most severely in the kharif and produced an indifferent rabi crop, and in them village relief was continued up to the 15th June 1908 when a 15 days' validictory dole was given.

There were altogether 14 aided works opened and four poor houses, one at each tabil head quarters. It was not found necessary to open either departmental or civil works.

The 1908 rains were favourable and gave a good kharif harvest which helped people to recover quickly.

Page 59.—TRADE.

Ralli Brothers have now formally established themselves and show a very large export trade from the city.

Page 63.—RAILWAYS.

Broad-gauge line from Rosa to Sitapur opened in 1910.

Metre-gauge-line from Shahjahanpur to Bisalpur opened in 1911.

Another sanctioned project is the line from the station to the Bahadurganj and Carewganj markets.

Page 64. LOCAL ROADS.

In 1912 was metalled the road from Azizganj to Nibiaghat to connect the Bareilly road with the bridge over the Gurrah to be built at Rajghat.

The Mohamdi road is being metalled.

The Shahabad road will be metalled shortly.

Page 65.—BRIDGES.

The project for a bridge at Rajghat has been sanctioned, and work will be begun shortly.

CHAPTER III.

Page 91.—KATEHRIAS.

Raja Fateh Sah was poisoned in 1910. The present holder of the title is a boy named Gajendra Sah, aged seven years, and the estate has been taken under the Court of Wards.

Page 93.—Brahmans.

Pandit Jwala Prasad died in 1911 leaving no children. The estate has passed to his widow.

Misr Sheo Narain was made an Honorary Magistrate in September 1912.

Page 94.—OTHER LANDOWNERS.

Lal Bishamber Nath died in December 1911. He has left two minor sons who are under the guardianship of Lal Kunj Behari Lal.

Lala Bhikari Lal is one of the leading Kalwars here who has invested the money he had made from drugs contracts in land.

Page 95.—OTHER CASTES.

Sunder Lal's property was released from the Court of Wards in 1911.

CHAPTER IV.

Page 103.—DISTRICT STAFF.

The Shahjahanpur Bench has second class powers throughout the Kotwali, Kant and Seramau Thanas.

The Raja of Pawayan has second class powers and his son Kunwar Indar Bikram Singh also has second class powers.

Shahjahanpur became the head quarters of an Oudh and Rohilkhand Railway Division in 1912.

Page 104.—GARRISON.

The Garrison was finally withdrawn in March 1910. It is proposed to abolish the Cantonment from April 1914.

Page 119.—HEMP DRUGS.

From 1912 the experiment was tried of a Tahsilwar contract for three years. Pawayan and Shahjahanpur have been given as one contract, Tilhar and Jalalabad as another.

Page 128.—Pounds.

Also Qasimganj in tahsil Shahjahanpur.

Also Doonda and Fatehpur in Pawayan { Opened in 1912. tahsil.

Gazetteer of Shahjahanpur.
